Yep. Stalking. Attempting to "follow" me into domains or NG's
wherein YOU have no apparent vested interest and making obviously
venomous comments is stalking.

What lies? What libel?

Morkie...YOU are the acknowledged and admitted liar here.

Morkie, I do my very best to NOT crosspost unless there is a very
clear mutual interest.

Your attacks on me in "alt'military.cap" are nothing BUT attacks,
and that's EXCACTLY what people see and perceive them to be.

No...You are trying to blackmail me into ignoring your publically
demosntrated deviant behaviouir and obvious lies and deceit.

It isn't.

You're admittedly gay.

You profess to have sex with men.

You are UNABLE to do anything to DISPROVE my assertions.

You have no realistic view of the problem.
Every other country in the world understands. Why don't you?
The land was stolen from the Arabs. Now the jews seek to
steal more and more land. They have been occupying a land
for over 50 years. It's about land and OCCUPATION.
Did you know it was the jews who introduced terrorism into
the area? They did. Their actions are despicable and they
are a Godless people. Most are very secular and immoral..
no religious as some would assume.

There's a price for occupation. Always has. Always will.
The jews need to deal with it or get their butts OUT.

I've addressewd every claim of "threat" you've made.

Not a one of your "threat" claims has withstood public scruitiny.

Sure you don't.

Why would a gay man be concerned with women's names, Mork?

I am sure you don't.

But that doesn't address your misrepresentation of Evelyn Woodhead
as being associated with "fat".

The tone of the NG will improve when you stop lying, cross posting
to non-germane NG's, and generally learn to accept that not everyone
who posts a comment you don't like is a "lier".

I call you "Mork" because you insist on acting like the fictional
TV alien...He arrives with a gross misunderstanding of the enviroment
around him, frequently misinterprets the words or actions of others,
then goes off on misguided antics in search of answers that any
English-competent 3rd grader already knows the answers to.

That's not what you wrote, fatboy.

You wrote: "I can't lose Robeson".

THAT statement suggests that you are incapable of misplacing a
Robeson.

Had you intended to suggsest that you were incapable of failure,
you would have written "I can't lose, Robeson."

So, there you go...Screwed up again, fed your own errors, and once
again proven that my labelling of you as "Mork" is entirely adequate
and appropriate.

Reminds me a bit of a so called delicacy the French have called ordelon -
spelling? They make a big ritual of drowning a smal bird about the size of a
sparrow in wine. It is then sauteed whole after the feathers are removed and
served on a plate. The diner then places a linen drape over his head and
inserts the cooked bird into his mouth whole, tail end first. The whole
thing is then chewed until only the feet and beak remain. These are
extracted from the mouth and deposited on the plate to conclude the
festivities. I hear the Frogs pay big bucks to partake of this.

"Agreeing with you is not claiming you are "wise" is factual.

You're morbidly obese by all medical definitions.

Thanks for the admission. I'll save it for a rainy day...Like the

YOU wrote "I can't lose Robeson"...

THAT sentence suggests that you are incapable of misplacing a

Had you written "I can't lose, Robeson.", you would have been
telling somone named Robeson that you were incapable of losing.

In the context in which I made the comment, it had nothing to do

That you just blew it apart in THAT sentence proves your abuse.

A Chinese dish that I was once served is called drunken shrimp. Live
shrimp are placed in a bowl of ice water and then sake is poured into
the water. Immediately another bowl is placed upside down on the first
bowl. The shrimp take in the sake-water and get drunk and start jumping.
You can hear them hitting to cover bowl. When the noise stops, they are
ready to eat. Still alive, drunk and docile and their gut is evacuated.

There's a world of difference between technical electronics knowledge
and ability to decipher code. One has absolutely nothing to do with the
other. FWIW, I don't even have a ham license anymore. I don't care
about the code, whether it lives or dies. If you enjoy brass pounding,
then do it.

Just don't equate that ability with another that is not even slightly
related.

Sure they do.

It's a violation of federal law to disclose the names of officers
involved in an open or on-going investigation, regardless of the status
of indictments.

Frankie had WHAT pegged...?!?!

Frankie had a hard time getting his own name right, let alone anything else. Even Hans, K0HB, who doesn't care for me anymore than you do was able to tear Frankie's rants apart, even on USMC issues, and Hans was a NAVY retiree.

And as for being any kind of a friend to you, he and every other member of the Feeble Five flatly told you "NO" in no uncertain terms when YOU solicited thier help for your "complaint" to the Tennessee State Board of Nursing...I still have them all on disc.

No, Morkie...there's nothing there for YOU to brag about!

BTW...If you were MY son-in-law and just published my home phone

" I'm not going to call some number that's probably some stooge

indeed I supose I could have set it up

but there was no need the number was out in public domain you can check
yourself if you like

you were posting his name and address for a few days about a month ago
so you know the address the number is listed have at you are most
likely to get an nswering achine but that will still show who you are
dealing with

It is my wife desire to have you stop and admit she is female. Her
father will oblige her if you get ahold of him and are polite. would
not you do it for one of your own girl if it came up?

She also want you to admit you have been defaming her and her family,
but you are not man enough to fess up to it. ashe has been afaid to
doas you ask on general priciples so I have been looking for a subible
venture to prove the point and still respect what you have left of her
privacy and her father's when she suggested posting a copy of her Birth
certificate I vetoed that as too intrusive in our lives and we came up

How about India, do they understand?

Tit-for-tat retribution for what happened in India should be levied
against muslims. The gitmo prisoners should be killed one-at-a-time
until enough information can be gathered so as to save 200 "non
believers" (aka "world" civilians).

If all gitmo prisoners die before 200 civilians can be saved, so be
it. The gitmo's prisoners vowed to die for their cause anyway.

The loosing side in a war will have more casualties.

Zarqawi died 19 hours after 6/6/06, see chapter 74, verse 30.
EVERYTHING about him was, and will be considered, the devil's work.

If you need a refresher: http://www.smalltime.com/findthespam.html

So, are you gutless or just brain-dead? Would you know a killfile if

What is a "freid" and do you know what a capital letter or a

ROFL, Sorry. I'm starting to believe laughing at him just encourages him
to make more typo's. We need to stop laughing and pity him instead.

Maybe if he had to learn CW the mental process would help his spelling.

Getting rid of CW is like choosing the kind of film.

Ham radio is drowning and the anti-code hams want us to think tossing it
bricks will make it float better. Dumbing things down is never an

"Seen" except for special needs. And those that do special needs will
likely be making millions. There will be about 12 of them that make it,
and thousands that don't, but wish they could.

Who do you propose would buy the bands? The only ones even remotely commercially viable are 70cm and above, and those are such small segments that they wouldn't be all that viable either. The bands 220 and below are not viable at all commercially because of the size of antenna needed. HF? Forget it!. Maybe give it to the pirates to play with.. that would be the only thing that could be done with it. I say leave it as is.

In 1953, as a sophomore in high school, I didn't know any
electronics and was therefore forced to memorize the ARRL
License Manual in order to get my Conditional license.
People like me have been memorizing License Manuals for
more than half a century.

We (the USA) stole the land and put the jews there. We had to do something with them, so why not put them where we can use them.
The muslims started the terrorist nonsense because they were pissed that the jews had what they consider muslim holy land.

They are dealing with it. And with US weapons and intel to boot. If we have to make the mid east a nuclear fallout area, so be it. Iran better knock off their nuke nonsense or we will do to them what we did in Iraq and Afghanistan.

Rules and regulations are just an exercise in memorization also. They require no knowledge of electronics either.

The CW text requirement is like the requirement for a foreign language requirement for some college degrees, it rounds out the amateur skills.

More truth that you don't care to accept. That YOU don't like it

Yes, you do it stupidly, too.

Of course I never met a "smart" liar. Not a single one of your

That's Morkie's standard response.

He thinks that by redirecting the suggestion that someone else

That wasn't mine, Morkie.

He's talking to YOU, fatboy.

The one you need to be questioning about how they feel about it IS
you. Ask yourself why 98% of the people who enter this fray find you
to be an insufferable punk.

Then ask yourself why the 2% who do "talk" to you on "your side"

It still doesn't matter. >>>I<<< didn't put the number OR the

That YOU did it again to YOUR OWN FAMILY is one of the singularly
most callous and selfish things I think I've ever seen you do!

I've been telling you for months now what would stop this: TAKE
THE PICTURE, fatboy!

Nope.

Get your attributes right!

And YOU were the one who gave us his name and city!

WHAT AN IDIOT! You claim others are "stalking" you and your
family, yet you give INTIMATE details of your alleged in-laws in THIS
forum ! !

Of all the nincompoop things to do!

Uh huh...A stooge, no doubt. Someone just waiting to answer the
phone for you.

TAKE THE PICTURE!

Then tell him to TAKE THE PICTURE!

You and "her" standing side-by side, with "her" holding a sign
stating she's your "wife", and holding a current copy of USA Today to
verify the date.

All this means is that you know someone at IU that got the address

I have several friends at NASA in Huntsville, AL. I bet that with
a bit of fenegalling he could get me, at least temporarily, an e-mail

I say Mark C. Morgan's been caught in yet another lie that he

My "arrestion"...?!?!?

What's an "arrestion"...!??!?!

If you meant "assertion", the "assertion" is YOURS that you

it.

I wouldn't do that to MY mother-in-law, and I don't particularly
care for her!

> I am simply taking what advantage can had by

YOU violated your "wife's" privacy by brining "her" into this
forum, Mork.

YOU humiliated "her" with YOUR conduct and YOUR outlandish claims,
assertions and admissions of deviancy.

No one EXCEPT YOU has business offering any apologies to "her'" for

It's not MY "marriage" that's in question, Morkie...

You are refusing to aid your own cause by taking one simple
photo...One photo that would have earned you an apology and cessation
of this almost a year ago.

So...One can only draw the conclusion that I am right and you are
wrong.

You don't have to prove your wife is male, Morkie...We already

It's up to YOU to show otherwise.

As for what I was told on the phone otherwise, I can't change what
they said.

On the otherhand, YOU are the ONLY one who keeps regurgitating
that, so YOU are the ONLY one keeping it alive, Morkie...I pretty much

My amateur radio license, obtaining by memorizing the ARRL
License Manual in 1952-1953, was the catalyst that caused
me to seek and obtain a EE degree later in 1959.

The point is that an amateur radio license is a learner's
permit to exercise certain privileges during a lifetime
of learning. It is a permit, not a graduation certificate.

I use a digital for my family memories type shooting.

I use FUJI roll film in 120 size for my serious MF work. It is either Fuji VELVIA for transparencies or NPH for formal portraits.

In either case, digital or film, they have nothing to do with ham radio in general or CW in particular.

CW is!

I love it.
This IS what 2 meter repeater operation has been like for years.
But cell phones are cutting down on traffic except for the die hards.
In fact, 2M repeater operation is getting back to being respectable.

Compared to you, Lloyd has a lot of relevant things to say. You're just
jealous because even listening to his radio show, it was more
intelligently produced than anything you ever said on the air. Not to
mention even with your pissy signal.

And the last comment was from a mommy abusing twat in his 50s who lived
at home from the age of 38 onward until his mommy died a couple of years
ago. A guy who had to take his amateur radio licensing exam over because
of bad behavior on the bands. A guy who was repeatedly cited for
flagrant violations of the rules and regulations involviing amateur
radio. A guy who hid behind the curtains at least twice when visited by
people who had a problem with his bad mouthing them in this group. A
mommas boy who sat on his ass for years, lived with momma, and showed

what a useless scum he is while never holding down a job or starting a business. What a loser!!!!!!!!!!!!!!!!

dear cap group users;

a fine member of the amateur radio community (K4) is being targeted by
the radical homosexual markie. part of this plan seems to include
spamming this fine group.

please do not consider the trash posted about K4. consider the source.

thanks to one and all for your continued service to all of us. markie
should be thanking each of you but instead chooses to spam.

BWHAHAHAHAHAHA .....Hi Llardass!

A phrase Lardass uses all the time. Busted, fatty!

You are dreaming if you think your stuttering, stammering, bumbling
attempt of a show (who has no listeners *or* guests) is relevant,
Lardass Davies. Like when you lisped "Steve is not a Pedo" on one of
your shows in that high pitched girly voice of yours.

> Not to mention even with your pissy signal.

Then how could Roger be guilty of jamming anybody, dumbfuck?

The last comment was from a twat who beat his mommy after she caught
him stealing money from her purse and was commited to a mental
institution in Independence, Iowa for a year. Then after Lardass got
out he was kicked out of his daddy's (his parents split up) shitty
duplex and tried to go to college and flunked out. The mommy beater was

forced to get a job at the only type of employment he was qualified to do deliver pizzas. The poor morbidly obese little twat also dreams he is a "time lord" and has fictional trashcan robots at his disposal. He can't get a date, and the internet is his only life. Is it any wonder he is still a virgin at 32 years of age?

I said "by function". Not "locate the resistor", but "locate the
balanced modulator circuitry".

You used to have to draw a few schematics on blank paper - no hints.
Now you have to be able to identify a resistor. Big deal - that
should take all of 3 seconds to memorize. Memorizing which side of
the heart sends out the oxygenated blood doesn't make you a cardiac
surgeon.

well another passes where Robeson could choose to being to stop the wave f filth he and his confedaertates have unleased on the web

instead he choose to try and take a stament out of context to support his wil libel that My wife is male, his false charge that I am child molestor

Yes I am werey of this but given the choice is the loss my freedom I refuse

Robeson has tried to claim that I seek to prevent him from comenting on my sillines (aludig I think to the fact my first drafts are horible I am dyslexic a triffle aphasic and frankly not interested enough to give a dam if I smispell some words) he he free to pointhis none of actions arederected at stoping that

none one should be expected to allow unanswered the charge be made that his wife is male when she is female. Maj Robeson is offered proof of this, He refuses to accept it. He claims I am highschool drop out (which would prevented me from serving in the armed force as I have BTW) he has been offered proo postive that I either attended college or have friends willing to risktheir employment forme (which disporve his arrestion that I have no friends and make his game with my by liene nobodies old friend libel een by his stardards)

this war of terror by the Cap officer Robeson began in 1998 and continues to this day

SC,

Morris Code -plus- Continuous Wave (CW) Radio Transmission
-and- Semaphore Signals ? Do They Defining Amateur Radio ?
- - - The Times They Are A Changing !

While I can admire and respect an Amateur {HAM} Radio Operator
for Mastering Morris Code (CW).

Morris Code in and of itself does not define the Amateur Radio Service.

Morris Code
http://en.wikipedia.org/wiki/Morse_code

Continuous Wave (CW) Radio Transmission 'process' in
and of itself does not define the Amateur Radio Service.
http://en.wikipedia.org/wiki/Continuous_wave

The Amateur Radio Service is Greater than both Morris Code
and Continuous Wave (CW) Radio Transmission - IMHO ~ RHF

Boy Scout Merit Badge Requirements - "RADIO"
http://www.meritbadge.com/mb/093.htm
At one time when I was a very young boy nd a Boy Scout
I Learned to Send and Receive Morris Code at about 5WPM
-but- Then I also learned to use Flags to Send Hand-Flag
"Semaphore" Signals Too !
http://en.wikipedia.org/wiki/Semaphore_(communication)
Neither the ability to use Morris Code or the Semaphone
Flags to Communicate 'defined' Being A Boy Scout.

A white lie, a little extortion and a little murder.

A girl without friends has only enemies; a sacrifice in public to the

A bureaucrats prayer.

Despot ourselves in righteous anger.
Free us from reflection.

Actually the Code that Sam developed is completely unlike the code we use on radio. What is tested for is the "International Morse Code" Sam's code was click based and radio is beep based.

DGN,

The Modern International Morse Code was invented by
Friedrich Clemens Gerke in 1848 and first used for the
Telegraphy between Hamburg and Cuxhaven in Germany.
After some minor changes in 1865 it has been standardised
at the International Telegraphy Congress in Paris (1865),
and later normed by the ITU as International Morse Code.

Like your link says, it's MORSE code, as in Samuel F. B. Morse. Who's
Morris?

There was absolutely NO altering of text, fatboy!

YOU know how to stop it, and you're refusal to "do the right

The "wave of filth" is yours, fatboy. Tons and tons of it.

Hey fatboy, there was NOTHING taken out of context.

I quoted it LETTER FOR LETTER!

> Yes I am werey of this but given the choice is the loss my freedom I

There's no loss of freedom here, Morkie.

Quite the contrary.

You HAVE a choice.

You may choose to let this go on and on by refusing to pony-up the
proof of your wild assertions of grandiose businesses and marital
status, or you can stop it in a minute with the picture that will tell
the tale.

Morkie, your refusal to use the tools that technoology provides
you with some assinine suggestion that they don't work for newsgroups
is just that...Assinine.

And the rediculousness of THAT assertion not withstanding, what
bits of decipherable content you do manage from time to time is itself
poorly framed, ineffectively delivered, inappropriate to current
state-of-the-service, and just plain silly.

> what I seek by any legal means I can to tstop the dangerous Libel he
> spreads he and his confederate Wisemen

You have no route of recourse save to prove me wrong, Morkie.

YOU claim to be married to a female person.

Get a picture of you and "her" together with her holding a sign
saying she's your "wife" and a current copy of USA Today to validate
the date.

Provide us with some sort of public document that verifies the
legitimate status of your "business.

Provide us with the name of the institutions you GRADUATED from,
the date and the discipline in which your diploma was awarded.

> none one should be expected to allow unanswered the charge be made that

You've offered nothing except a phone number and an address to a
third party in another state, Mork.

Take the picture, fatboy!

> He claims I am highschool drop out
> (which would prevented me from serving in the armed force as I have

No, being a high school dropout would NOT have prevented you from
being a member of the Armed Forces, Mork. It may have prevented you
from being assigned to certain MOS's or advancing past a certian grade
unless you obtained a GED, but it would NOT have prevented your
enlsitment.

Yet another "paragraph" of gibberish, Mork.

You've offered NO proof of enrollment, let alone graduation from
ANY educational institution. Having an e-mail address via an
institution is no proof.

Morkie, YOU are the one who needs to take action...Not me.

As long as you continue to lie and refuse to substantiate YOUR
claims, YOU will be recognized and known as the liar you've already
been proven to be...

Sam's original equipment used ink and scrolling paper to
record the dots and dashes because he didn't think an
ordinary human being could distinguish between the sound
of the dots and the sound of the dashes. He was wrong.
Human operators quickly discovered that they could distinguish
the difference between the down clicks and up clicks and
therefore distinguish the dots from the dashes.

It is true that Sam's "American" Morse was different from
"International" Morse in about a dozen characters but both
used dots and dashes. Still, more characters were alike
than were different.

The term "lid" may have originated from newbie Morse operators
laying a lid on top of the relay receiver to make it easier to
distinguish the dots from the dashes.

otherwise.

However even your "friends" consider YOU an "###hole", witness the words of Brian P Burke on several occassions.

distinguish between the sound of a dot and the sound of a dash.

I think that's a pretty safe assumption with "ordinary" in the
sense of an average human possessing average hearing abilities.
I would bet that a dog could even be trained to distinguish a
dot from a dash.

NO FORGERY EXISTS, FATBOY!

You were quoted word-for-word, with headers intact.

> this spaming atack is proof of your stlaking robeson

No stalking...No spamming.

Quoted word for word.

YOU claim that you utilize English "prefectly well"

Obviously you don't, even on such topics that are apparently
important to you.

What does that say about YOU when you won't take the steps to make
yourself understood effectively on IMPORTANT issues, Mork?

The insanity is YOURS, Morkie, for publishing (or republishing, for that matter) the personal details of a family member in an unmoderated, flamefest newsgroup!

Mr Wiseman is NOT my confederate. That he shares many of the same opinions about you only means that we share the same opinions.

Now...An apology is due ME for having alleged that >>>I<<< was the one responsible for publishing such intimate details of your family's privacy, Mork!

They see who the filth is, Morkie....

It's the "guy" who keeps crossposting to a non-germane newsgroup

Not a single words was forged by me, Morkie.

I quoted you word-for-word, with ehaders intact to the original
text.

> you knoow how to verify my wife is FEMALE

Sure I do. And when you POST THE PICTURE as I told you I would
accept it, then I will retract any claims to the contrary.

BUT UNTIL THEN, All I have to go on are YOUR words from past posts
as to YOUR prefered lifestyle and behaviour.

The "truth" will be a picture of you and your "Mrs" taken
together, her holding a sign admitting to be your wife and a current
copy of USA Today to validate the date.

Until then, anything else is YOU dodging the bullet.

> why are you doing this

I'm not "doing" anything except responding to you in kind.

You've made tons of assertions unverified by any disinterested
third party (read that not related to you by blood or marriage...ie: an
educational institution of governmental office) or by photographic
evidence.

you don't have.

Nope.

Not me.

YOU admitted that "she" is a male, Morkie.

> ythat Iam not a child molestor

Nope. I repeated what I was told.

I've not repeated that assertion in years now, having not been
given any more information to prove the assertion as truthful.

On the OTHERhand, YOU have been repeating it over and over.

What was it you used to say..."Thou dost protest to
much..."...?!?!

THAT appears to make you pretty paranoid about it, Mork.

> calling you a liar forsuch statements is not libel

You can call me a liar all you care to, Morkie.

It doesn't make it true

> if you care to test that theory sue I will be happy to prove it to you

You could "prove" a lot by taking the picture of you and your
"Mrs", Morkie, and then follow it up with proof of all those college
degrees you claim to have.

Nope.

I have more than enough female "perks" to keep me occupied for
several lifetimes, Morkie.

I don't do greasy, unwashed fat women, and I certainly wouldn't
"do" a greasy, unwashed fat "man" like you...In this life or any other.

However if you care to continue your fantasy otehrwise, be my
guest.

reference to rape in just 30 seconds.

It's a fetish of yours.

Three references now, Morkie.

You've made the same death threats over and over despite having
had it made known to you that the use of such a threat in the absence
of a clear and present danger to your life or property is a violation
of both Michigan and Federal laws.

> I certainly do refer to violence

Uh huh...No doubt your time in the mental health system did little
to curb your "anger issues"...

> and I state again it obviously would take violence to stop you

Nope.

Just pony-up sone evidence to validate your assinine claims, Morkie

What's true on your part is that you are a known pathological
liar.

YOU said that you lie.

Now you expect to have your wild###ed assertions taken at face
value as being factual and are unable to understand why no one will....

I'm not harrassing you, fatboy.

How can I claim? easy Maj Roesnon refuses to accept evidence that he is wrong. when he refuses to accept evidence of of flasehoods in the eyes of many they become his lies

Take the matter of my wife for he has been offered the chance to proove her gender one way or another . what does he do, he comits frauds by altering a post or taking a sentence our of context instead of follwoing up on the lead provided.

indeed he attacks me for providing the lead in the first place

He and his confederates publish my father in law's person info weeks ago so no further intrution realy occours by my republishing it and yet that refference gives Robeson the ability to verify my story after all he truned up the addres his confederate turned up the number to go with so why should thye not trust it. Indeed he accused me of setting him up. what he demands is picture of my wife, so her and his confederates can play digtal games with all over these NG's as has already been done with my ten year old image. he demands as well I provide a curent photo of myself

he claims then he will stop harrassing me (and then denies he has ever harrassed me)

he claimsI am not a hs graduate and when offered proof to the contary he refuses to take me up on the matter insiting instead I provide him access to my personal college transprits

and in all this making demands he insists HE is the one being stalked

Some people dont even know who started what. Some people just take sides for the heck of it.
>From 14.313 to the Hal Turner message board to Nim Busters and from people like Vonbluvens and Bill White(www.otherthrow.com) to Herb, KV4FZ and WA9KJI. Groups like the B.A.R.F and the NSM (National Solicialist Movement) have risen and fallen in the chaos.

But why do these little fueds keep going for? Is it for some greater good, or is it to satisfy someones ego? I just dont understand.

First, it started back in the late 70's or 80's in the form of Radio Wars on the 20 and 75 meter ham bands. (Read the KV4FZ Story for more Background info) It included all sorts of people, who have come and gone. Then The Great Liberty Net came to the scene, and it had its supporters and detractors as well. Glenn Baxter, K1MAN had his 15 minutes of fame too...

All that changed around late 1998 or so, when a "New Sherriff" came to town in the form of FCC's Riely Hollingsworth. He quickly went to work, sending out restet letters and giving people like 6 month suspensions and so forth. At that time, around the year 2000, people began to take the "Radio War" to the internet. Newsgroups were spammed as people began to take thier fueds online. Message boards like "Nim Busters" were hangouts for this sort of trash. People like KV4FZ, who were unjustly villfied for many years, were replaced by people like Internet talk show host Hal Turner. Radio clubs like the Better Amatuer Radio Federation have faded away, only to be replaced by Nim Busters and other related groups.

Will it ever end?

Back in the olden days a BA degree focused on art, humanities, language, sociology, etc.

Back in the olden days a BS degree focused on math, more math, physics, chemistry, biological sciences, etc.

The basic difference was M A T H ... M O R E M A T H ... then four or more semesters of C A L C U L U S.

In fifty years I've forgotten most of that MATH and Calculus stuff, but I still like to read about the humanities, history, sociology. That must mean something. My degree, like Cecil's, is a BS [That does not stand for Bull S...]

I retired from the BS business in 2000.

Now I'm an ordained minister, ordained in 1988 as a Catholic Deacon, and serve

If you think watching him type "gte help" every follow up, and whatever else he tries to type & spell is funny, you need more help than he does.

We need to save ham radio, not tease Mark. Just ignore his stupid ass.

Let's get these groups back on topic. Thanks. 73

SWL's should learn CW too.

You never know when you might stumple across a station in distress sending
an SOS and you might be the only one that hears it and can get help.

But it seems all SWL's want to do is sit around like blobs all day long
and tell themselves their cheap plastic Etons and Grundigs sound good.
They don't want radio skills if it takes a little work to learn them.

I'm guessing that's why Telamon hates CW and ham radio as well. Laziness.

2344. Lolicon station on 13.556 USB

I have put my lolicon board on 13.556 MHz usb (audio) and on sstv for the video. Already there is a big Taylorville audience of local winos and pedos who watch in a bar down the street. Sure it is niche programming, but at least it is a start.

If you can pick up the station, let my program manager Mark Morgan know.

Yeah, I should probably proof read before flaming someone. At least it
provided some amusement.

2362. Day 217 (YAWN) of Mark crying he was "libbeled".

Day 217 of Mark crying...
"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and fraud."
"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and fraud."
"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and fraud."
"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and fraud."
WAH! WAH! WAH!

So, let's re-cap Mark's wonderful life, shall we:

1) He was drafted into the US Army.
2) He is a member of the Chemical Corps.
3) The military won't let him retire.
4) He doesn't serve under the name 'Mark Morgan', but that's okay, 'cuz the FBI, DOD, and CIA have all told him he can do it.
5) He is on-the-lam from stalking former marines and fatal attraction ex-wives
6) He was, until recently, paying $5/hr. to access his ISP
7) He has a 248 IQ, but can't figure out how to use a spell checker.
8) He is a bi-sexual 33 yr. old Pagan male ham who likes to be spanked.

9) He can't find any action on the military base in Central IL, so he has to ask people on USENET.
10) His best like-minded buddy lives in Glendale, West Virginia and neither of them can spell.

Have I missed anything?

"He said he was a Kentucky Colonel. And he works as a consultant for the Government, then said he was tech support..... "

There are a number of people on here who should "gte help."

Much like I ignore your stupid ass most of the time.

If you are going to give such advice, why even refer to Mark as a
"dipshit?" Are you trying to start somthing while trying to ignore
him? Just doesn't make sense.

I'm not agreeing with your opinion of Mark, but I am agreeing to ignore
people who annoy you.

Much like most of us were taught to not respond to a repeater jammer,
don't respond to the usenet jammer.

HOWEVER...

...Robeson simply won't stop.

It wasn't until after months of Mark "Out-Assholing" Steve did Steve
finally back off.

It took some pretty despicable comments about Steve's family for Steve
to finally get it. Then he sued Mark over it, or more correctly, he
lied about suing Mark over it.

So in the end, ignoring people who annoy you works about 99% of the
time and is still a good strategy. But Steve is so far out there that
he's not even under the bell curve limbs. He's well beyond 3 standard
deviations.

know morse code? is that a requirement for radio operators? or did you
buy your license from "joe" at the comic book store?

Sorry to hear that. Have you hit any of the download caps that Hughes
enforces? How is your latency? Is it two-way or do you send upstream
traffic via telephone line?

Oh, and your ISP still sucks tho.

Niggers started HIV [an old freind]

HIV, AIDS or "The Black Plague" only niggers could have caused this!!
An infectious, disease caused by a nigger virus and brought on by the
black race. which attacks the niggers immune system and impairs the
niggers ability to think or fight diseases. AIDS has become a worldwide
epidemic thanks to homosexual black males. this is due to living in
filth like ghettos,black women who don't bathe,sharing needles,eating
out of trash cans,black inmates having anal sex. the black population
is 99.9% likely to give and get aids than any other race!!.

CM,

Yes - Many Shortwave Radio Listener's (SWL's) do just that.
Listen to the best "AM" International Shortwave Radio
Broadcasters that they can 'hear' at their location.

When i was a kid in the 60's a local ship to shore cw station could be
heard just under the local AM broadcast band station my family
listened to. That's what got my interest in radio going. The same
thing happens on short wave if you detune it right...

You can hear the change in noise as a carrier goes on and off. It's
extremely difficult to copy high speed CW like that if the signal is
strong, but a weak signal or slower CW is just as easy to copy as
noise as it is to copy as a pure tone. T1 doesn't mean uncopyable, it
just means ragged tone.

So now amateurs and SWL's should be Morse code proficient
not only using tones but using the swishing sound made when
a BFO is not present?

If you can copy CW, you can copy CW. The tone it's coming in with
doesn't make much difference. I've copied signals so weak that they
were just changes in the quality of the noise and I've copied perfect
S9++T9 signals. They were all mostly R9. The R only changes if the
signal fades completely out or if there's interference that masks the
signal. Try that with PSK.

I wonder how many a retired old-timer who decided to join ham radio
stroked out instead while doing speed runs trying to get to 13/20wpm on

Day 217 of Mark crying...
"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and
fraud."
"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and
fraud."
"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and

"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and
fraud."
WAH! WAH! WAH!

So, let's re-cap Mark's wonderful life, shall we:

1) He was drafted into the US Army.
2) He is a member of the Chemical Corps.
3) The military won't let him retire.
4) He doesn't serve under the name 'Mark Morgan', but that's okay, 'cuz
the FBI, DOD, and CIA have all told him he can do it.
5) He is on-the-lam from stalking former marines and fatal attraction
ex-wives
6) He was, until recently, paying $5/hr. to access his ISP
7) He has a 248 IQ, but can't figure out how to use a spell checker.
8) He is a bi-sexual 33 yr. old Pagan male ham who likes to be spanked.

9) He can't find any action on the military base in Central IL, so he
has to ask people on USENET.
10) His best like-minded buddy lives in Glendale, West Virginia and neither
of them can spell.

Have I missed anything?

"He said he was a Kentucky Colonel. And he works as a consultant for the
Government, then said he was tech support..... "

What the hell is wrong with you people, you no-code retards or something?
Stop teasing the dipshit! Just ignore Mark, he don't understand radio.
Someone probably took the test for him and that's how he got a license.

The rest of you are smart enough to know this will help save ham radio,
email this to the FCC. Help save Ham radio and ignore markie to save
usenet. Thanks

1->No more automatic renewals. Individuals must retest and pass all
elements required for their license class every ten years.

2->The passing score for written exams needs to be raised to 85%.

3->Code elements should be 13 wpm for General, and 20 wpm for Extra.

4->Make the no-code license one year non-renewable.

5->Cancel your ARRL membership until they decide to work to improve
things and stop them from proposing ham radio that is like CB.

Many SWL's are Ute listeners. They are the ones most likely to stumble
across an SOS.

Just like a person isn't a real ham unless they've passed a code test, a
shortwave listener isn't a real SWL unless their receiver has a BFO.

(SWL's who listen to shortwave with antique receivers are exempt.)

I'm not yet blind but I, like my father, am going deaf.
I couldn't hear a CW signal without a BFO if my life
depended upon it. I can't hear most of the CW signals
even with a BFO.

I am not going to this link because it says it is a porn link. Looks
that all the Palmer fans post in this thread. Where is Kim? Kim come
out of hiding. Usually you spit your hatred and defamation in my face.
Why don't you come out now and speak for your husband?

Is he innocent or not? And if he isn't innocent, is that why your kids
having to take p$ych drugs?

Like you hid when Oris stopped by your filthy HUD apartment, fatassed pizza boy?
Or was a no-showe at Dalton hamfest? BWHAHAHAHAHAHAHA!

I happened to be traveling through Huntsville, Alabama early this morning, I deceided to stop in Athens and see just how tough Lloyd Davies was going to act when he saw me in person.

Many of you know that a few years ago, Lloyd got smart with several people in the Deja Newsgroup (now Google) and I issued a challenge to him. I told him I would be attending the Dalton, Ga. Hamfest if he wanted to continue the conversation. He said he would be there and he was going to kick my ass.

Well, Lloyd was a no-show and continued the verbal assault on the newsgroups. He always talks tough behind his keyboard. And, I understand he is now doing the same sort of thing on the NIM Busters Board.

Well, about 8.35 this morning (December 23, 2004) I located his apartment in a nasty looking section of town. I'm a pretty good sized man, but I put my gun in my back waistband after exiting the car. I located his apartment and knocked on the door. The doorbell was missing and bare wires were sticking out of the wall. I heard someone say I'm coming and shortly the door opened with a safety chain lock still engaged. He asked what I wanted and I introduced myself and asked if we could have a conversation. He turned white as a sheet and attempted to slam the door, but I already had a foot wedged in the opening. He started shaking uncontrollably and was shouting leave me alone, leave me alone! I told him he didn't seem so tough now face to face and then noticed a putrid odor of urine and he was pissing his pants and crying like a baby. Please leave me alone Oris he said, I was just having fun and meant no harm, please leave, please. I could see the filthy floor of this apartment and the dirty floors and the stench of a grown man pissing on himself were almost enough to make me want to vomit, and I don't have a queasy stomach. Upon telling him that this time he would escape a ass kicking and not to ever get a smart mouth with me again and a verbal yes from him, I departed. That apartment complex looked like a crackhouse, niggers everywhere, filthy grounds and stairwells. Junk cars everywhere and garbage overflowing the garbage cans.

This Lloyd is nothing more than white trash that delivers pizzas and
could afford to take a trip out of town if the ticket cost $5.00.

I'm sending this to a friend who despises Lloyd Davies and he wanted to
post it for everyone to see just what kind of chickenshit asshole this
Davies really is.

Oris Grim

You'll have to try harder than that, Grasshopper.
Don't blow a fuse. I think you are a good guy at heart.
Yer politics are a little naive; but hell, you live in the states!
That's a serious handicap for anyone attempting political awareness.

Michael the faggot's torment increases as he is made to strip and piss for the class. (MM/m-teen, exh, nc, 1st, mast huml, forced nudity, ws)

***

"Please Sir; I can't piss in front of all these guys. Please don't make me..." Michael was actually begging. It was so fucking hot. Even the straight guys in the room had boners from watching the pussy-queer beg and whimper. Somehow, watching faggots being degraded makes most straight guys sexually hot. I guess it just reminds them of what men they are.

"Shut the Fuck up Cuntface!" doctor Brass shouted and the guys in the room cheered. He loved it when they idolized him. "Take a faggot piss in that plastic cup right now, or I get on the horn and tell your daddy that his son is a cocksucking faggot and will be kicked out of our school!"

Poor young Michael, what could he do? He took a deep breath. He felt sick to his stomach. He held his dick in his hand and tried to piss. The guys in the classroom leaned forward. He had to take a piss in front of all these jocks. They would all see the piss shooting out of his dick.

Michael squeezed his eyes shut. "Please help me to get out of this mess, God..." he prayed. But God was busy helping straight boys. So Michael had to piss. His hand shook as it held the plastic cup. He sighed and let the piss flow.

"Now notice boys how thin and weak his piss stream is. That's because most faggots have very small piss holes. Not like yours. I'll bet most of you guys can almost get a little finger in your piss slit it's so big and I know that when you piss, it's a real gusher. Sometimes in the locker room, I can hear your piss hitting the porcelain of the urinals, and it sounds like fucking Niagara Falls."

The guys cheered.

"I don't know if any of you dudes have ever tried pissing up the twat or ass of the girl you are dating, but it's quite a rush. You really ought to try it. It's also lots of fun to piss into the mouth or up the ass of a faggot. If there was any justice in this world, we wouldn't need urinals at all. We'd just have a bunch of faggots on their knees all day in the men's room, mouths open, ready to take our piss."

The jocks were really tugging at their crotches now, squeezing their hard dick lumps, wanting their pricks out in the open so they could jerk them. Most of them couldn't wait until class was over, so they could call up their twats and arrange a fuck date.

Michael stood there and pissed. His tiny dick filled the cup half full of piss. Then the Doctor took the cup with the warm liquid and held it up. "Also notice boys how weak and pale the Faggot piss is. Not strong and yellow like your piss. Well Faggot, here you go." He handed the glass back to the faggot.

"What should I do with it?" The faggot asked.

"Drink it, you dumb cock knob!" one of the boys yelled, and all the guys busted a gut.

"Oh God, I can't do that. Please don't make me do that!"

"You heard the boys. A faggot has to learn to always follow

the orders of real men. He has no choice. That's his life. He must do whatever straight guys say. So Faggot, open up and have a nice drink. Drain the glass."

Wasn't it bad enough that he had to stand bare-assed naked on a chair in front of these guys and take a piss into a glass. Must he also be subjected to the total humiliation of having to drink it besides? I guess so!

With trembling hand, Michael raised the cup to his lips. He could smell his piss. The cup felt warm. He opened his mouth and started to sip the urine. He gagged and put a hand to his mouth.

"If that's puke you're spitting up boy, better swallow it again. If you vomit, I swear to God, I'll make you lick it up!"

Michael swallowed his bile and then swallowed the piss. He decided if he drank it quickly, he wouldn't taste so much of it.

"Whoa, hold on there Faggot... I want you to swish it around in your mouth like fine wine. Gargle with it before you swallow it." The sadistic Doctor wasn't missing a trick. "I want you boys to make this Faggot drink your piss every chance you get. I want to see him walking around with his stomach bloated with piss until he looks like a pregnant sow!"

Michael curled his toes on the chair and cried so hard he got the hiccups as he sloshed the piss around in his mouth.

"At the end of today's class, I'm going to send you boys into the bathroom with beer bottles. I want you to return with them filled with your piss. That way, the faggot will have plenty of refreshment over the next few days."

Michael's stomach rumbled from the piss he had drunk. He handed the glass back to the Doctor.

"Now that his bladder is empty, let's measure his clit and balls again. My God, Boys, look... they are even smaller than before!"

"Doc," Collins yelled, "He must use a tweezers and magnifying glass to jerk off."

The good Doctor laughed. "Well speaking of jerking off, lets see how someone with a tiny dick this size does it. Okay Michael, show us how a faggot jerks off."

Eighteen year old Michael couldn't believe his ears. They expected him to masturbate right in front of all of them!

WAH! WAH! WAH!

So, let's re-cap Mark's wonderful life, shall we:

1) He was drafted into the US Army.
2) He is a member of the Chemical Corps.
3) The military won't let him retire.
4) He doesn't serve under the name 'Mark Morgan', but that's okay, 'cuz
the FBI, DOD, and CIA have all told him he can do it.
5) He is on-the-lam from stalking former marines and fatal attraction
ex-wives
6) He was, until recently, paying $5/hr. to access his ISP
7) He has a 248 IQ, but can't figure out how to use a spell checker.
8) He is a bi-sexual 33 yr. old Pagan male ham who likes to be spanked.

9) He can't find any action on the military base in Central IL, so he
has to ask people on USENET.
10) His best like-minded buddy lives in Glendale, West Virginia and neither
of them can spell.

Yeah, Mork. I'd like a "pecae" of ass every night, too.

Ignorance is power?
Only if you are holding a gun.

Change is in the wind.
It didn't have to be, but
certain decisions of late
are accelerating the process.

We shall see how things turn out.

The US is now returning to Canada the $3.5 billion
illegally taxed during the softwood lumber dispute,
after loosing every single international court
battle for the last 11 years.

The US dollar is falling like a rock against all
global currencies because OPEC isn't using the
greenback for oil transactions anymore.

Lots of stuff the domestic media
protects you from being exposed to.

The domestic confidence is already starting to weaken.
Dubya hasn't helped things much.

The 'Great Experiment of Democracy' is failing.
For forefathers did not count on the determination
the corrupting influences would demonstrate in
weakening their ideals. It is unfortunate.

Lowest common denominator election process. Almost
inevitable, with manipulative mass media psychology.
This problem has been expounded upon at great length.

The value of personal wealth was overemphasized, I think.
Prestige should have been weighted more heavily.
Ben Franklin had a lot to say about that.

It *will* be interesting to see what happens in Lebanon.
I am in harmony with your distaste of the Islamic Theocracies.

...jj

IN CONGRESS, JULY 4, 1776

The unanimous Declaration of the thirteen united States of America

when in the Course of human events it becomes necessary for one people
to dissolve the political bands which have connected them with another
and to assume among the powers of the earth, the separate and equal
station to which the Laws of Nature and of Nature's God entitle them, a
decent respect to the opinions of mankind requires that they should
declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all men are created
equal, that they are endowed by their Creator with certain unalienable
Rights, that among these are Life, Liberty and the pursuit of
Happiness. - That to secure these rights, Governments are instituted
among Men, deriving their just powers from the consent of the governed,
- That whenever any Form of Government becomes destructive of these
ends, it is the Right of the People to alter or to abolish it, and to
institute new Government, laying its foundation on such principles and
organizing its powers in such form, as to them shall seem most likely
to effect their Safety and Happiness. Prudence, indeed, will dictate
that Governments long established should not be changed for light and
transient causes; and accordingly all experience hath shewn that
mankind are more disposed to suffer, while evils are sufferable than to
right themselves by abolishing the forms to which they are accustomed.
But when a long train of abuses and usurpations, pursuing invariably
the same Object evinces a design to reduce them under absolute
Despotism, it is their right, it is their duty, to throw off such
Government, and to provide new Guards for their future security. -

Such has been the patient sufferance of these Colonies; and such is now the necessity which constrains them to alter their former Systems of Government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this, let Facts be submitted to a candid world.

He has refused his Assent to Laws, the most wholesome and necessary for the public good.

He has forbidden his Governors to pass Laws of immediate and pressing importance, unless suspended in their operation till his Assent should be obtained; and when so suspended, he has utterly neglected to attend to them.

He has refused to pass other Laws for the accommodation of large districts of people, unless those people would relinquish the right of Representation in the Legislature, a right inestimable to them and formidable to tyrants only.

He has called together legislative bodies at places unusual, uncomfortable, and distant from the depository of their Public Records, for the sole purpose of fatiguing them into compliance with his measures.

He has dissolved Representative Houses repeatedly, for opposing with manly firmness his invasions on the rights of the people.

He has refused for a long time, after such dissolutions, to cause others to be elected, whereby the Legislative Powers, incapable of Annihilation, have returned to the People at large for their exercise; the State remaining in the mean time exposed to all the dangers of invasion from without, and convulsions within.

He has endeavoured to prevent the population of these States; for that purpose obstructing the Laws for Naturalization of Foreigners; refusing to pass others to encourage their migrations hither, and raising the conditions of new Appropriations of Lands.

He has obstructed the Administration of Justice by refusing his Assent to Laws for establishing Judiciary Powers.

He has made Judges dependent on his Will alone for the tenure of their offices, and the amount and payment of their salaries.

He has erected a multitude of New Offices, and sent hither swarms of Officers to harass our people and eat out their substance.

He has kept among us, in times of peace, Standing Armies without the Consent of our legislatures.

He has affected to render the Military independent of and superior to the Civil Power.

He has combined with others to subject us to a jurisdiction foreign to our constitution, and unacknowledged by our laws; giving his Assent to their Acts of pretended Legislation:

For quartering large bodies of armed troops among us:

For protecting them, by a mock Trial from punishment for any Murders which they should commit on the Inhabitants of these States:

For cutting off our Trade with all parts of the world:

For imposing Taxes on us without our Consent:

For depriving us in many cases, of the benefit of Trial by Jury:

For transporting us beyond Seas to be tried for pretended offences:

For abolishing the free System of English Laws in a neighbouring Province, establishing therein an Arbitrary government, and enlarging its Boundaries so as to render it at once an example and fit instrument for introducing the same absolute rule into these Colonies

For taking away our Charters, abolishing our most valuable Laws and altering fundamentally the Forms of our Governments:

For suspending our own Legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever.

He has abdicated Government here, by declaring us out of his Protection and waging War against us.

He has plundered our seas, ravaged our coasts, burnt our towns, and destroyed the lives of our people.

He is at this time transporting large Armies of foreign Mercenaries to compleat the works of death, desolation, and tyranny, already begun with circumstances of Cruelty & Perfidy scarcely paralleled in the most barbarous ages, and totally unworthy the Head of a civilized nation.

He has constrained our fellow Citizens taken Captive on the high Seas to bear Arms against their Country, to become the executioners of their friends and Brethren, or to fall themselves by their Hands.

He has excited domestic insurrections amongst us, and has endeavoured to bring on the inhabitants of our frontiers, the merciless Indian Savages whose known rule of warfare, is an undistinguished destruction of all ages, sexes and conditions.

In every stage of these Oppressions We have Petitioned for Redress in the most humble terms: Our repeated Petitions have been answered only by repeated injury. A Prince, whose character is thus marked by every act which may define a Tyrant, is unfit to be the ruler of a free people.

Nor have We been wanting in attentions to our British brethren. We have warned them from time to time of attempts by their legislature to

extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity, and we have conjured them by the ties of our common kindred, to disavow these usurpations, which would inevitably interrupt our connections and correspondence. They too have been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in the necessity, which denounces our Separation, and hold them, as we hold the rest of mankind, Enemies in War, in Peace Friends.

We, therefore, the Representatives of the United States of America, in General Congress, Assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the Name, and by Authority of the good People of these Colonies, solemnly publish and declare, That these United Colonies are, and of Right ought to be Free and Independent States, that they are Absolved from all Allegiance to the British Crown, and that all political connection between them and the State of Great Britain, is and ought to be totally dissolved; and that as Free and Independent States, they have full Power to levy War, conclude Peace contract Alliances, establish Commerce, and to do all other Acts and Things which Independent States may of right do. - And for the support of this Declaration, with a firm reliance on the protection of Divine Providence, we mutually pledge to each other our Lives, our Fortunes and our sacred Honor.

Ignorance is power?
Only if you are holding a gun.

Change is in the wind.
It didn't have to be, but
certain decisions of late
are accelerating the process.

We shall see how things turn out.

The US is now returning to Canada the $3.5 billion
illegally taxed during the softwood lumber dispute,
after loosing every single international court
battle for the last 11 years.

The US dollar is falling like a rock against all
global currencies because OPEC isn't using the
greenback for oil transactions anymore.

Lots of stuff the domestic media
protects you from being exposed to.

The domestic confidence is already starting to weaken.
Dubya hasn't helped things much.

The 'Great Experiment of Democracy' is failing.
For forefathers did not count on the determination
the corrupting influences would demonstrate in
weakening their ideals. It is unfortunate.

Lowest common denominator election process. Almost
inevitable, with manipulative mass media psychology.

This problem has been expounded upon at great length.

The value of personal wealth was overemphasized, I think.
Prestige should have been weighted more heavily.
Ben Franklin had a lot to say about that.

It *will* be interesting to see what happens in Lebanon.
I am in harmony with your distaste of the Islamic Theocracies.

...jj

And as you gather your crayons about your bending knees and pay tribute to
The Queen Mum from New York, bow ye down and prostrate your humble self in
front of the Queen Mum and beg for her Forgiveness in all things, large and
small.
Such as you beg, so shall she grant.
Go forth, my Son, and drive no more from the bridges of Chappaquiddick.

I guess saving lives is saving lives only when it uses CW. Those
firemen are way out of their league when compared to this bunch.

Lets face it folks to be a well rounded Ham one should learn CW. You never know when it will come in handy. I am not that good at it, maybe a step or less above a Novice, but I like to fool around with it. One ought to think about learning it in do time even though it is not required.
My 2 cents worth.

absolutely and conpletely honest

how balanced is to to place CW over all over ham knowledge?

How progressive is it?

how freindly is it to advocate keeping the bands for yourself based on
your own self interest?

how loyal is it to denny the nation the benifits of allowing more
operators to aquire the expence needed to truely work on hf by focusing
on CW?

how patriotic is it to keep a staion forom aquiing the skill to be

Survival of the fittest.

By taking the test you're claiming that you understand the questions
and know the answers. By memorizing the answers you're not learning
enough to understand the questions.

But I wouldn't expect you to understand what "honesty" means.

>how balanced is to to place CW over all over ham knowledge?

No one is, any more than by requiring people to know the law one is
putting the law "over all ham knowledge".

>How progressive is it?

How progressive is it to not require people to know ... oh, yeah,
that's progressive, since the new thing is to hand out licenses
because people have some kind of "right" to get on the air.

>how loyal is it to denny the nation the benifits of allowing more

What "benefits" does the country get from more people using radios who
don't know the first thing about them? (Whatever "denny" means.)

> to aquire the expence needed to truely work on hf

You don't acquire knowledge (which is what's needed) by playing with a
radio.

>how patriotic is it to keep a staion forom aquiing the skill to be
>ready for service to conutry and community?

How does playing CB on the ham bands give one "the skill to be
ready for service to conutry and community"? Or any skill, other than
getting what you want? You don't acquire skill by doing something
that requires no skill. And you, particularly, don't acquire
knowledge by demanding something for nothing.

no, one is claiming they can pass the test

which is the only requirement

I do know what honesty means and you don't employ it

you certainly are

but no one is required to know the law at all merely happpening to obey
it is enough

the current system place CW over all over modes combined any statement
to the contary is dishonest
.

you statement makes no sense since obviously anyone that has a radio
and can turn it on knows at least the first thing ,if he/she can get on
the air he know a few more

knowledge is needed why? It is helpfull I grant you but needed vs
experence
well that is Bullshit I know more I supect about radio and RF than you
having studied EM waves and their proerty at the College level and yet
this knowledge is only mildly usefull if I am on the HF bands as I
often am for Feild day or something to be a more effective operator I
need expernce at HF not knowledge of circuts

what is playing CB mean? other than then pejoritive

babble all you like

so you are claiming this is NO skill in passing traffic at HF I think I
could find people that woluld disagree with you

no knowledge is aquired by learning Morse Code certainly no secert of
the unverse is derived for it

No one is suggesting that ANYONE be given something for nothing
but it is a requirement of law that restictions in access to PUBLIC
reasources must be reasonable in nature

knowledge of Morse code is not realected to prevelegdes it brings ask
the Armmy how many CW opperators it uses in routine affairs, the answer
is zero (intel is not for this prupose routine nor is specail ops)

So, let's re-cap Mark's wonderful life, shall we:

1) He was drafted into the US Army.
2) He is a member of the Chemical Corps.
3) The military won't let him retire.
4) He doesn't serve under the name 'Mark Morgan', but that's okay, 'cuz
the FBI, DOD, and CIA have all told him he can do it.
5) He is on-the-lam from stalking former marines and fatal attraction
ex-wives
6) He was, until recently, paying $5/hr. to access his ISP
7) He has a 248 IQ, but can't figure out how to use a spell checker.
8) He is a bi-sexual 33 yr. old Pagan male ham who likes to be spanked.

9) He can't find any action on the military base in Central IL, so he
has to ask people on USENET.
10) His best like-minded buddy lives in Glendale, West Virginia and neither
of them can spell.

Have I missed anything?

"He said he was a Kentucky Colonel. And he works as a consultant for the

The question should be: "Are there still Militialoons and
Pay-triots out there who still buy these things?"
We had two PAY-triot kooks living in our town that I knew of.
One of 'em purchased a whole bunch of GROSSLY OVERPRICED
gold numismatic coins, storable dry food and water jugs along
with other useless crap prior to Y2K thinking the world would end
on Jan 01 2000 when all the computers stopped working.
He ended up having his house sold at Sheriff Sale due to non-payment
of taxes and default on his mortgauge in 2002. The other guy was
caught selling meth from a lab he had in his garage and has not
been seen since he went to jail and his live-in and 3 feral kids
are someplace in AZ no doubt on welfare on some reservation or
some other shithole part of town. Yup! Gotta love these shortwave
radio listening kooks, froot-loops and loons.

I wonder if a TinyTenna will pick up The Great Liberty Net and Pastor Pete Peters.

If it will, I want one asap.

Mr. Lauterback should reveal the secret behind this technological blockbuster.

Too bad Art Collins and Curtis LeMay aren't around to hook one of these to an R-390A to make it a really good performer .. :-).

I bet the Pentagon would buy them by the thousands.

I wonder if a TinyTenna will pick up The Great Liberty Net and Pastor Pete Peters.

If it will, I want one asap.

Mr. Lauterback should reveal the secret behind this technological blockbuster.

Too bad Art Collins and Curtis LeMay aren't around to hook one of these to an R-390A to make it a really good performer .. :-).

I bet the Pentagon would buy them by the thousands.
....
Bet old Les Luckleer could use one of them down yonder in Miss Pee Pee land.

The question should be: "Are there still Militialoons and
Pay-triots out there who still buy these things?"
We had two PAY-triot kooks living in our town that I knew of.
One of 'em purchased a whole bunch of GROSSLY OVERPRICED
gold numismatic coins, storable dry food and water jugs along
with other useless crap prior to Y2K thinking the world would end
on Jan 01 2000 when all the computers stopped working.
He ended up having his house sold at Sheriff Sale due to non-payment
of taxes and default on his mortgauge in 2002. The other guy was
caught selling meth from a lab he had in his garage and has not
been seen since he went to jail and his live-in and 3 feral kids
are someplace in AZ no doubt on welfare on some reservation or
some other shithole part of town. Yup! Gotta love these shortwave
radio listening kooks, froot-loops and loons.

Makes you wonder why they call it the "Great" liberty net. Course' for every
right toon there is a leftist toon character in the wings waiting to whine.

Scroll to the bottom of the page. See Kevin Alfred Strom's name there?
It the Liberty Net had even a shred of respectability, which it doesn't, the association with Nazi Strom shredded it and tossed it into the toilet.

It is worth downloading the .wav files to listen to W9ART jam Vic and his myopic apostles.

I hope these files are still there for the sake of posterity everyone

No one is claiming any such thing.

CW is pass/fail. To fail CW denies all HF privs (except for Alaska).

Then why is it with the prospect of losing the CW Exam, that you'se

It's always been that way. You could even buy Heathkits already
assembled. (and Get a context clue: deny).

Then the military has wasted billions of dollars over the years

Who knows? That's not what Mark is talking about, is it?

So it really is all about CW. Why have a written Exam at all?

The requirements for an amateur radio license have been all over the
map over the history of the service. The ORIGINAL amateur radio
license had no Morse Code Exam, even when Morse Code was the only means
of communicating.

Get over it. Everyone else is moving on.

Therein lies the solution to the problem. Make A1 the
only mode allowed within amateur radio - solves all
the problems, doesn't it? No more mode arguments, no
more band crowding, no more expensive equipment, ...
The list of advantages is virtually endless.

We don't. We want to get back the level it used to be before it was
dumbed down to the point that you could almost pass it if you never
heard of the FCC, ham radio or electronics. Just by guessing at the
answers. It used to require that you draw (was it 3?) schematics.
From scratch. Let's see how many people could do that today. A

Colpitts oscillator, a Hartley oscillator and some other circuit that
I've forgotten at the moment. They're still as relevant today as they
were 50 years ago.

Today all you need is the time to take the test and the money for the
test and the equipment. IOW, a CB "license" with a tiny bit of
annoyance up front. How does CB benefit the country?

>> You don't acquire knowledge (which is what's needed) by playing with a

I trained operators when I was in the military. We didn't do it by
giving recruits radios and telling them to go jam each other.

That's exactly what he's talking about. Give someone a radio and a
"license" to use it and he'll "acquire the skill to be ready for
service to country and community". That's what Mark said, right up
above. How does one acquire skill by playing radio?

>> Or any skill, other than
>> getting what you want? You don't acquire skill by doing something

>So it really is all about CW. Why have a written Exam at all?

You don't acquire technical skill by doing something that doesn't
require technical skill. You don't acquire operating skill by doing
something that requires no operating skill. And you don't acquire
skill in CW by cursing into a mike.

But that's what Mark and his ilk want - we'll have "skilled operators"
if we allow people to buy radios and put them on the air with no skill
or knowledge. By osmosis? Or by magic?

So you'd get a license not knowing CW, build a radio (you couldn't buy one then) and ... what? Sit and look at it. Some things are just too obvious to need mentioning.

>Get over it. Everyone else is moving on.

Evidently not, or I'd be the only one in the world advocating that a test should actually test for something. There are actually millions of us who don't think lack of instant gratification is the worst thing in the world.

What next? DXCC awards for those who *want* to work 100 countries?

The disadvantages are too. No playing with digital modes. No
innovations. No new inventions by hams. And, I have to admit, my CW
has gotten a bit rusty - I doubt I could send readable code at much
over 15wpm these days. I can still copy faster than that, though.

who siad you did

but I for one have no interest in learning CW at all even if that were

on here there are perhaps 3 people still advocating a Morse code test

OTOH nobody advocates ywe drop testing except occasion the frustrated
advocate of Code testing

Yes personalyI think some the thing we current test are at best
questionable I would prefer to foucs more on rules and safety question
I realy don't think any body needs to memorize thatwhat freg is white
in SSTV signal he know prehaps where to look it out but to have that
knowledge memorized no way and yet there is such a question on the
current extra pool

Sounds like the cb tards are again defaming a good man!

his credits:

My 3.5 wavelength six meter wire antenna is sure working great! May 21,
2004 I got 6 meter VUCC with that antenna and 50 watts. Email me for
details. It is easy to build and waaaay cheaper than a beam.
UPDATE: Now that I got VUCC with the wire, I am using a 4 element beam
at 56 ft. to add some squares to my first 100 verified for the award.

6 meters rules!

A fine ham keeping the magic band alive!!

Thank you doug

"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and fraud."
"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and fraud."
WAH! WAH! WAH!

So, let's re-cap Mark's wonderful life, shall we:

1) He was drafted into the US Army.
2) He is a member of the Chemical Corps.
3) The military won't let him retire.
4) He doesn't serve under the name 'Mark Morgan', but that's okay, 'cuz the FBI, DOD, and CIA have all told him he can do it.
5) He is on-the-lam from stalking former marines and fatal attraction ex-wives
6) He was, until recently, paying $5/hr. to access his ISP
7) He has a 248 IQ, but can't figure out how to use a spell checker.
8) He is a bi-sexual 33 yr. old Pagan male ham who likes to be spanked.

9) He can't find any action on the military base in Central IL, so he has to ask people on USENET.
10) His best like-minded buddy lives in Glendale, West Virginia and neither of them can spell.

Have I missed anything?

"He said he was a Kentucky Colonel. And he works as a consultant for the Government, then said he was tech support..... "

I gotta say, this is one of the cleverer troll posts I have seen !

I'm going to no-sell it and say that I've got this damn noise around
50.175 that sounds just like weak SSB if you're tuning by it, and so I
get all excited when I'm tuning around 6m and I come across it... until
I look at the display.

Also have a bunch of them that sound like CW signals... this is mostly
a problem on 6m where I'm really, really hoping something happens.

73 es you'll get over it someday,

Dan

More importantly, that you can only transmit on 7.000 to 7.300 mHz, with restrictions on mode and license class. Or that you call "MAYDAY" on voice or SOS on CW for emergencies and never, never, never call "breaker, breaker".

Going back to the orginal point of memorizing or not, is knowing the type of oscilators and drawing their schematics anything but memorizing?

Actually, the only MORSE code you need to get help is SOS (not even run together as one letter). If you keep sending SOS, SOS, SOS, someone will eventually hear you and track you down.

Note that the original intent of the morse code test was that amateur radio was to provide a pool of ready trained radio operators in case of war. I'm in a country in the middle of a war, and I can guarentee you that NONE of the radio communications are morse code.

In fact, until we took out the cellular towers in Lebanon, almost all of the Hizbolah's command and control traffic was via cellular phone.

Geoff.

It seems to be reciprocal, Roger. Despite Mark's spurning of your advances, you act as if he lusts for you sexually. Does the idea arouse you? Otherwise, why continue to bring it up?

Yeah! Look at the memorable things YOU'VE done with an HF license,
UnWiseman. You've had the opportunity to exchange official
correspondence with Riley Hollingsworth and to prove to the Commission
that you can pass an amateur exam for the second time. You're proof
that no man is a total loss, that he can always serve as a horrible example.

You might have been better off if you'd remained a "passive listener".
By the way, are there many active listeners?

Not knowing the "distances" involved - any chance they may be using YOUR
cell towers? IF so, that could really suck. Nothing like having your enemy
use your own equipment against you.

Hello Brian,
Nothing can compare with the smell of yard ape niggers.

I took a course years ago. It was explained that the nigger is not
fully human. The nigger has a gland near the lower spine that for lack
of a better explaination is called the stink gland. It was used a
defense method when a tiger or such was chasing the nigger in the
jungle.

In the modern world it is a fact that most niggers have been to jail.
Even a situation like traffic court triggers the stink gland to start
pumping. It's a niggers natural defense.

The nigger is a filthy animal much like a cross between an ape and a
pig, no more or less.

I agree. Just watch, the niggers and wiggers will appear like cock

loving white guilt. They are worse than the nigger. The nigger is a

There's a difference between knowing that the unit of resistance is
the Ohm, and remembering that the answer to the question about
Kirchoff with the 3 resistors is 10,000 ohms.

someone could memorize that sort of detail I spuose but you nor your
friends have ever advanced any evidence that this occurs Indeed I
don't think it is possible to memorize enough to pass the test and
learn nothing in the bargan I can't prove that of course but it does
seem likely

We have to keep trying to save Ham radio while we still can because once it's all the way in the shitter it will be even harder to pull back out & clean up.

A Ham who'll stand for nothing will sit for anything. I won't accept more dumbing down.

Help save Ham radio:

1- No more automatic renewals. Individuals must retest and pass all elements required for their license class every ten years.

2- The passing score for written exams needs to be raised to 85%.

3- Code elements should be 13 wpm for General, and 20 wpm for Extra.

4- Make the no-code license one year non-renewable.

5- Cancel your ARRL membership until they decide to work to improve things and stop them from proposing ham radio that is like CB.

There is absolutely no way you could have passed the written exam Mark, no
way. The VE's must have accidently mix up your answer sheet with someone

It's not just a hobby, read part 97 again. If you wanted just a hobby you
should've stuck to CB and Stamp collecting.

Help save Ham radio and ignore Mark to save
usenet:

1- No more automatic renewals. Individuals must retest and pass all
elements required for their license class every ten years.

2- The passing score for written exams needs to be raised to 85%.

3- Code elements should be 13 wpm for General, and 20 wpm for Extra.

4- Make the no-code license one year non-renewable.

5- Cancel your ARRL membership until they decide to work to improve
things and stop them from proposing ham radio that is like CB.

mine
I passed to 2 elemt test for tech we used ot have and I have passed the
the general and extra class written waiting for the plug to be plulled
on code testing

Look like for time on the CSSE I moay need to retake the general

"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and

"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and

WAH! WAH! WAH!

So, let's re-cap Mark's wonderful life, shall we:

1) He was drafted into the US Army.
2) He is a member of the Chemical Corps.
3) The military won't let him retire.
4) He doesn't serve under the name 'Mark Morgan', but that's okay, 'cuz
the FBI, DOD, and CIA have all told him he can do it.
5) He is on-the-lam from stalking former marines and fatal attraction
ex-wives
6) He was, until recently, paying $5/hr. to access his ISP
7) He has a 248 IQ, but can't figure out how to use a spell checker.
8) He is a bi-sexual 33 yr. old Pagan male ham who likes to be spanked.

9) He can't find any action on the military base in Central IL, so he
has to ask people on USENET.
10) His best like-minded buddy lives in Glendale, West Virginia and neither
of them can spell.

Have I missed anything?

You're most likely correct on getting into the "politics" of the ARRL to "try" to get anywhere. But, good luck. It is more like a "good ole boys club". Anytime I've ever seen any reps to the area at a hamfest - they acted like snobs more than trying to communicate with hams of their concerns OR to try to win those hams who weren't members - to become members. If the rep couldn't give me the time of day, the ARRL didn't need my money either. I stopped my membership when it was due for renewal. That was a good 15 years ago or better. How did the rep act like a snob? He turned to his bud who was with him behind the table and ignored others "trying" to gain his attention and talk to him about whatever. Oh - he may look and say Hi, but god forbid you interrupt his conversation with his buddy. So much for the "MEET YOUR ARRL REP HERE"

lou

The sign reads, "Instant Gratification". Buy the equipment and be
able to put it on the air immediately.

It wouldn't surprise me if, in the not too distant future, one will be
able to buy a ham transceiver, create call letters out of one's
initials or something and legally be on the air while waiting for the
real "ask for it and you get it for a fee" license.

Deadly Force Michigan and me
Amusing the way those that claim I am a nonenity are always trying to
advance the notion I am not allowed to defend myself with deadly force

one can read it in the link but the readers degist abridged version
amounts that wether or not the Castle doctrines apllies in a given
(recent impending changes expand the castle doctrne in Michigan BTW
http://www.migunowners.org/forum/showthread.php?t=15323) acitizen who
is not the agressor is only required to retreat from a dangerous
sitution in event he SAFELY do so. I point out in RRAP RRCB that I am
able to walk easily and thus I would argue if one of these nuts jobs
forced me to by getting himself shoot on my land that my ability to

safely retreat is seriously limited if it exists at all, and second the threshold to cause me bodilyharm is lower than most becuase of the same health problems

in short since I have been forced to think i conclude that If come accroos a vandal on my land barring his imediate flight I will quickly exaust any option I have not to use force esp deadly force should it be at my disposal (after all I can't put ma shotgun if since he can better move to take and use it against and I can't enage in hand to hand combat to restrain the Vandal without serious risks to both of us)

some notes on obselete tech on radio but you have to wait for it
why did the Longbow cease to be the main stay of the battle feild?
after the crossbow that replaced was an inferior weapon
and the crossboww superior to the muskets and rifles that replaced
indeed the english longbowmen was more effective on the battlefeild
than any military system the follow till after WW2 indeed a gruop
Bowmen out of other ammo but happening to have thier bow with in the
retreat toward Dunkirk put a german unit to flight (mostly through the
shock factor and the quieness of the bow)
why did the longbow lose control of the battlefiled
simple it took a lifetime of traning and practice to maintain that
effectness a crowbowmen could be trained in months
a riflemen in weeks
finaly to radio
why did CW lose out to mode that are effective
acodring to even it booster is takes weeks to train a cw ops and it
take practice for most to keep up their skill
voivce why these day even the porblem for voice op in geting through
signal problem is practiced by cell phones users in many locals on a
daily basis
CW was too expensive in human and finacail terms to surviv in the
comercail world
it is too expensive in huan terms to hold sway with more than half of
the ARS ops now (look at the numers) andyet it boosters inist like the
King of englad did at one point in trying to ban the playing of golf to
insist on it continued infliction on the ARS
yet it is likely as the longbow does survive being superceeded by the
crossbow musket and M16 that it will survive
but could drop the crap about it being the end of the ars to change in
the tech of the late 20th century and stop decring those that would
like to play as trators to the kingdom of the ARS

Why? I assume you really mean that the current crop of new hams needs education. Have you done anything? How many new hams have you elmered?

Are you active on 2m? Do you speak to new no-code hams and offer to teach them morse code, let them see your HF station in operation? Have them assist you during contests?

If all you do is hang out on the HF bands, and complain about how bad the new hams are, they will stay that way. Whose fault is that?

Geoff.

Personally, I would rather have the First Class and Second Class Radio Telephone back. Thank the broadcasters for lobbying to eliminate that requirement -- ironic that the industry has been sliding ever since (go figure) --
and of course -- this happen at the same time that personal computers for business usage were expanding, LAN for the PCs & cellular telephones introduced, and AT&T was broken up (1984 Judge Green order). SO -- the best "talent" left the industry (since the industry no longer wanted to pay for it).

A few dozen over the years, maybe over 100. I never kept count. Do I
still do it? No, the people I elmered are elmers now. And some of
the people THEY elmered are elmers. It's time I hung up my "elmer

Instead of canceling your membership you should have complained to
Newington. I've known a lot of League reps - some are great, some are
so-so and some are terrible. About the same mix as any large group of
human beings. Canceling your membership didn't make the situation any
better.

Wismen setting up the staion is easy even you could do it requires this
conect the cable to back or you Icom 910h (turn power up full)conect
the otherndof cable to mast mounted preamp run cable from preamp to
attnena
concent sound card interface to radio
point the end wth smaller eleamnts at the moon
turn and Viola at workable eme station
now geting the hang of the software take a bit more effort but I
suppose given what NASA trained chimps to do they could be trained to
conduct an EME qso these days

but Wismeen can't manage it

Remember also that most reps are elected by the few who bother to vote

In 1964 I passed the 13 WPM test on the first try at the Dallas FCC office.
I was 14. There are plenty who can top that, I'm sure.

The rulemakers "stabbed themselves in the back with their own ballpoints"
(To quote an article from Electronics World in 1962.) when they created CB.
But, as said article went on to point out, the industry needed a shot in the
arm. That article has stuck in my head to this day.

This isn't about creating the best operators, it's about selling the most
junk and having the most votes.

In response to my claim of my first EME contact someone in RRAP came back with "I doubt you can caluate the pathloos on an EME path (or words to that effect)

You know what I can't calualte that path loss

Indeed I would discourage anyone from trying to calculate it before trying the path what I have heard about those numbers is pretty discouraging

Why can I make such a contact when other say they can't or that I can't?

simple becuase I always KNEW I would, from the first monet I heard of EME contact which was from a question on Tech test back in 97 (I had heard a few days ebfore that No Code License existed I ordered the study but it arrived only the VE session so I tired the test cold KNOWING I would pass it then or next week or..) at the monent knowing nothing more than that such a contact was possible with my license I swore I would make one (or more)

I read the about the mode in detail and soon (in 97) realize I would likely have to wait awhile to keep that vow, but from time to time I renewed my efforts at first in data gathering a new milestone 2004 when I heard about the results with JT modes I began to pracetice with the early ones in terestial contact then last winter I learn of current jt65b mode and the details of the power and anttenna requiement abit of agonizing over wether I wanted to work with crushcrafts 31 foot 17b2 that I KNEW would work but that I have trouble steer or keeping safe in our harsh winters or the 13b2 I thought might work (and it did work like a charm, which it is in some sense of course) figuring I could always use it in terrestial modes and that I could later phase it with a second one and be assured of sucess then

but ALWAYS in mind was the KNOWLEDGE and assurance that I WOULD suceed and that even if I had failed now it was merely a lesson learned , part of paying my dues as it were

I knew I would one day be able to do it

I know anybody reading reading these words can do EME if they poccess 2 things

the will to reach for the Moon
the confindence to not count the obstacles

You have MY call on it KB9RQZ (sone to be /AE)

if you can't the data drop me a comment here or

Construction/design skills and operating skills are two different
things. What does one have to do with the other?

Did you build your own car? Dishwasher? Toaster? Razor?

Bill, I had a master machinist work for me in the 1960s. He could make ANYTHING!!

I asked him if he could make a car. Sure!! His reply: "All I need is a block of steel 6X6X20 feet, a large milling machine, and a large lathe."

He was a Ham Radio Operator, Collins stuff of the 60s.

Listen!

"THE MANUFACTURERS NEED MORE MONEY."

"THE MANUFACTURERS NEED BIGGER MARKETS."

"THE MANUFACTURERS NEED MORE ..."

Design and manufacture of any electronics item requires a market to recover design costs, to recover manufacturing tooling costs, to cover distribution costs, to provide a return on investment, to provide a return on equity, to provide net profits to cover medical insurance, to provide net profits for stock retirement plans, to feed the engine of the economy.

The cost of a single DSP chip that operates at high i.f. frequencies has to be recovered or the chip designer goes BANKRUPT. How many radios must be sold to recover a million dollar investment in a single chip?

"THE MANUFACTURERS NEED BIGGER MARKETS."

Follow the money. Understand our hobby/public service!

Finally then, the question becomes not whether we are appliance operators [most of us are], but do we wish to advance the radio art? "How do we advance the radio art?" is a complex question with many answers.

Is preserving historic skills part of the art? Is operating AM, when most HF is SSB, part of the art? Is ragchewing part of the art? Is EME part of the art? Is old fashioned RTTY part of the art? Is current digital communication part of the art [most of today's digital is actually ancient]? I say NO!

But, taking the time, using the energy to learn, investing our money in technology and learning that technology is contributing to the art. Or, is it?

red herring alert

Part 97 does not define Ham radio, Part 97 defines the rules

WE define Ham radio

BT - One Word : "Amateur" {Ham} as in Operator ~ RHF

All 'others' for the most part are 'appliance operators'
just like so many CB'ers - IMHO.

Yah friggen right, NOT! Continuing to stay knowledgable and re-testing won't improve things? Sheesh!! What's your problem then, If licensees remembered what was on their exams ten years ago passing the exams again should be a breeze. Of course, if they don't rememeber, they'll have to study again. This will make better hams. And the fact that this requirement has never existed in the history of ham radio doesn't make it a bad idea. You're just Lazy.

It DOES make a difference. It maintains the number of ways we can exchange information, and as a filter to keep out some of the riff-raff allowing you better enjoyment of the service.

Of course it WILL make a difference! It creates an incentive to keep studying and building on radio knowledge & skill by requiring an upgrade after a year. And we end up with more knowledgable hams. How can that be bad?

The ARRL knew what it's members wanted before restructuring through surveys of the membership, then did you read the proposal that came out with? Totally opposite of the feeling of the membership. Google it, we discussed it long and hard years ago when RRAP groupies actually argued policy. The ARRL is only interested in padding the corporate bank account, they don't care about the quality of amateurs getting licensed. Our HF bands can sound like CB if means the ARRL can get more money. The ARRL BOD stapped Hiram Percy Maxim in the back. The ARRL doesn't care if you know anything about radio.

We don't have to leave or complain if we can improve licensing a little.
That's what's happening here. Striving for quality.

BTW: Stay strong and safe over there. I support you. Don't stop the
mission until the job is done because if you stop early, you'll just have
to deal with the problem again later and it may be even harder and uglier
to do next time. I think most American's support Israel, but you could

And you want ham radio defined like CB. Ten-Four Good-buddy?

Dumbing things down cheapens it, and destroys others enjoyment. Look at
the childish bullshit you do in RRAP. You and the other rejects drove
everyone away with all your retarded bathroom hummor.

That's want will happen with on our HF bands, as it sounds more and more
like CB, good hams will give up on it and leave. Many already have.

Day 225 of Mark crying...
"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and fraud."
"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and fraud."
"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and fraud."
"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and fraud."
WAH! WAH! WAH!

So, let's re-cap Mark's wonderful life, shall we:

1) He was drafted into the US Army.
2) He is a member of the Chemical Corps.
3) The military won't let him retire.
4) He doesn't serve under the name 'Mark Morgan', but that's okay, 'cuz the FBI, DOD, and CIA have all told him he can do it.
5) He is on-the-lam from stalking former marines and fatal attraction ex-wives
6) He was, until recently, paying $5/hr. to access his ISP
7) He has a 248 IQ, but can't figure out how to use a spell checker.

Not hardly. Every time they change the pool, I get an up-to-date study guide just to keep current and see what's new. Could pass the test any day of the week and twice on Sunday. By the way the exam has changed in 10 years. There is some common stuff but there is also new stuff.

However, the biggest problem would be manpower for conducting the tests. Based on the current number of hams, that would be over 60,000 people retesting every year. The existing test system (and the prior systems when things were administered by the FCC) were all designed around the single testing concept. Essentially, it would mean almost every VE team would need to conduct test sessions weekly or hold huge test sessions monthly. There just aren't enough of us to do that. Plus many facilities now charge for the use of the facility. And the bigger the room, the higher the fee.

I believe in keeping a basic test simply because a person can't determine if
they will like code until they've tried it. Plus it is one of the basics of
radio. If they have the basics and have thus learned it is not a big, scary
hurdle, they will be willing to pursue it in the future since they already
know it at a basic level.

The filter argument, I consider totally bogus.

Code is either a basic part of ham radio or it is not. That should be the
criteria for determining if it should be tested.

In today's climate, it will not be an incentive. Those who want to upgrade
don't need the non-renewability clause. The rest will simply let their
licenses lapse. Those who would let it lapse aren't on the air enough to
contribute anyway.

So why don't you go run for office and promote your platform? Or form your own lobbying group? Complaining here won't get it done. If you want your platform to prevail, the YOU have to do the work to convince people. While the ARRL proposal was not what I wanted, it did indeed reflect some of the things that a significant percentage wanted.

As far as the ARRL padding the corporate bank account, if that is true, then you need to report them to the IRS as non-profit organizations are not allowed to do this.

As opposed to making a ham license something anyone can get merely by
asking for one - because, like you, they don't have the intelligence

Wismen setting up the staion is easy even you could do it requires
this
conect the cable to back or you Icom 910h (turn power up full)conect
the otherd of cable to mast mounted preamp run cable from preamp to
attnena
concent sound card interface to radio
point the end wth smaller eleamnts at the moon
turn and Viola at workable eme station
now geting the hang of the software take a bit more effort but I
suppose given what NASA trained chimps to do they could be trained to
conduct an EME qso these days

but Wismeen can't manage it

Laziness is not the issue. It's a question of results gained for the
effort expended. Nearly everyone will put a LOT of effort into
something if they perceive a useful return on their efforts.

CW donesn't so that for most people.

well I suspect this is just another forgery of your name Paul but I
will agree with the sentiments expressed it is time for the bullshit to
stop Nobody have have to endue it but the NGs have let the little pest
get used to being able to pull off his shit of calling everyone
prapists and child molestors for far to long

prehaps the real paul will have some practical plan to stop Robeson and
Wisemen his henchman

for myself when the torment of libel about me and esp my family stops
of course the responses to it will stop

Tell that to anyone that uses Aurora! What is
that intenmittant buzz on my radio?? Why can't I
figure out where this interference is comming
from? Can I get my power company to eliminate
it? And, by the very nature of it, digital
wont decode it (too much distortion).
Oh, well! And, BTW,1) The First Class Phone
is no longer issued (only General), and 2),
the ONLY people NEEDING one is for Marine , and
for Airlines! These havent been required for
two way, nor broadcast services for years, now!
The only reason for the requirement for those
two services, are because of International Treaty!

I thought that you had contacted the "very nice man" from aioe.org and that
he was blocking all further forgeries. I guess that means that (1) it's not
a forgery, or (2) the aioe.org guy lied, or (3) that Paul Schleck lied.

Bottom line: nobody cares; not even aioe.org.

Dnepr Rocket Launch a Failure - 18 Satellites Lost
The Wednesday launch of an ISC Kosmotras Dnepr rocket ended in failure moments after liftoff from an underground missile silo in Kazakhstan. The first stage of the rocket, a decommission Russian SS-18 ICBM, apparently shutdown 86 seconds after liftoff (about 10 seconds early). The rocket and its payload of 18 satellites fell back to earth 16 miles south of the Baikonur Cosmodrome.

The Dnepr carried 18 satellites in all, including a remote sensing spacecraft for Belarus, a Russian student-built satellite, two Italian university microsatellites, and 14 palm-sized CubeSat payloads housed inside five portable deployment devices.

The payloads lost due to this failure included:

BelKA - the first orbiting satellite for Belarus. An Earth observation platform, built by Energia in Russia, to carry out a robust remote sensing campaign for Belarus and other users worldwide.

Baumanets - a Russian microsatellite built by a group of students at the Moscow State Technical University. The small spacecraft was to have operated in space for at least one year as an educational tool and technology pathfinder for students.

UniSat 4 - an Italian payload was the fourth member of a series of microsatellites managed by professors and students at the University of Rome.

PICPOT - another Italian payload that was designed and developed by engineering students in Torino, Italy.

Also lost were 14 CubeSats from 10 different universities and 1 private company. The launch was coordinated by California Polytechnic State University. The Cubesats lost included:

AeroCube-1 built by The Aerospace Corporation and carried a 902 to 928 MHz spread spectrum downlink.

CP-1* and CP-2* built by California Poly Tech. They carried 436.845 and 437.325 MHz downlinks respectively.

ICE Cube-1* and ICE Cube-2* developed by Cornell University and carrying 437.305 and 437.425 MHz downlinks respectively.

ION* built by the University of Illinois with a 437.505 MHz downlink.

HAUSAT-1* built by Hankuk Aviation University in South Korea with a 437.465 MHz downlink.

KUTESat* built by Kansas University with a 437.385 MHz downlink.

MEROPE* built by Montana State University with a 145.980 MHz downlink.

nCube-1* developed by several Norway universities carried a 437.305 MHz downlink.

RINCON* and SACRED* built by the University of Arizona. They each carried a 436.870 MHz downlink.

SEEDS* built by Nihon University in Japan and carrying a 437.485 MHz downlink.

Voyager* built by the University of Hawaii and carrying a 437.405 MHz downlink.

Satellites marked with an asterisk would have carried an amateur radio band downlink and would have picked up an OSCAR satellite number from AMSAT if it would have been operational.

More information on this satellite program and a preliminary timeline of this launch failure can be found on the Cubesat website.

Job 1

Listen to this passage

Job 1
Prologue
1 In the land of Uz there lived a man whose name was Job. This man was
blameless and upright; he feared God and shunned evil. 2 He had seven
sons and three daughters, 3 and he owned seven thousand sheep, three
thousand camels, five hundred yoke of oxen and five hundred donkeys,
and had a large number of servants. He was the greatest man among all
the people of the East.

4 His sons used to take turns holding feasts in their homes, and they
would invite their three sisters to eat and drink with them. 5 When a
period of feasting had run its course, Job would send and have them
purified. Early in the morning he would sacrifice a burnt offering for
each of them, thinking, "Perhaps my children have sinned and cursed God
in their hearts." This was Job's regular custom.
Job's First Test
6 One day the angels [a] came to present themselves before the LORD,
and Satan [b] also came with them. 7 The LORD said to Satan, "Where
have you come from?"
Satan answered the LORD, "From roaming through the earth and
going back and forth in it."

8 Then the LORD said to Satan, "Have you considered my servant Job?
There is no one on earth like him; he is blameless and upright, a man
who fears God and shuns evil."

9 "Does Job fear God for nothing?" Satan replied. 10 "Have you not put
a hedge around him and his household and everything he has? You have
blessed the work of his hands, so that his flocks and herds are spread
throughout the land. 11 But stretch out your hand and strike everything
he has, and he will surely curse you to your face."

12 The LORD said to Satan, "Very well, then, everything he has is in
your hands, but on the man himself do not lay a finger."
Then Satan went out from the presence of the LORD.

13 One day when Job's sons and daughters were feasting and drinking
wine at the oldest brother's house, 14 a messenger came to Job and
said, "The oxen were plowing and the donkeys were grazing nearby, 15
and the Sabeans attacked and carried them off. They put the servants to
the sword, and I am the only one who has escaped to tell you!"

16 While he was still speaking, another messenger came and said, "The
fire of God fell from the sky and burned up the sheep and the servants,
and I am the only one who has escaped to tell you!"

17 While he was still speaking, another messenger came and said, "The
Chaldeans formed three raiding parties and swept down on your camels
and carried them off. They put the servants to the sword, and I am the
only one who has escaped to tell you!"

18 While he was still speaking, yet another messenger came and said,
"Your sons and daughters were feasting and drinking wine at the oldest
brother's house, 19 when suddenly a mighty wind swept in from the
desert and struck the four corners of the house. It collapsed on them
and they are dead, and I am the only one who has escaped to tell you!"

20 At this, Job got up and tore his robe and shaved his head. Then he
fell to the ground in worship 21 and said:
"Naked I came from my mother's womb,
and naked I will depart. [c]
The LORD gave and the LORD has taken away;
may the name of the LORD be praised."

22 In all this, Job did not sin by charging God with wrongdoing.

SODOMY IS AN ABOMINABLE SIN, WORTHY OF DEATH.
"If a man also lie with mankind, as he lieth with a woman, both of them have committed an abomination: they shall surely be put to death; their blood shall be upon them." Leviticus 20:13. "Who knowing the judgment of God, that they which commit such things are worthy of death, not only do the same, but have pleasure in them that do them." Romans 1:32.

See also Leviticus 18:22, Genesis 19, Romans 1:18-32, I Corinthians 6:9-11, I Timothy 1:10, and Jude 7.
GOD HATES ALL WORKERS OF INIQUITY.
"The foolish shall not stand in thy sight, thou hatest all workers of iniquity." Psalm 5:5.
See also Leviticus 20:23, Leviticus 26:30, Deuteronomy 32:19, Psalm 5:6, Psalm 11:5, Malachi 1:3, Matthew 7:23, and Romans 9:13.
JESUS CHRIST DIED ONLY FOR THOSE WHO BELIEVE.
"For God so loved the world that He gave His only begotten Son, that whosoever believeth in Him should not perish, but have everlasting life." John 3:16.
See also John 13:1, John 17:9, Ephesians 5:25, etc.
ONLY GOD'S ELECT HAVE THE CAPABILITY TO BELIEVE.
"Therefore they could not believe, because that Esaias said again, He hath blinded their eyes, and hardened their heart; that they should not see with their eyes, nor understand with their heart, and be converted, and I should heal them." John 12:39,40.
See also John 10:11,26, Matthew 11:25,26, Acts 13:48, Romans 9:19-24, etc.
SODOMITES ARE PROUD OF THEIR SIN ("GAY PRIDE"), AND IN THAT PRIDEFUL STATE THEY CANNOT REPENT - YOU CANNOT REPENT OF SOMETHING YOU'RE PROUD OF.
"Were they ashamed when they had committed abomination? nay, they were not at all ashamed, neither could they blush: therefore they shall fall among them that fall: at the time that I visit them they shall be cast down, saith the LORD." Jeremiah 6:15.
See also Jeremiah 13:23, Romans 1:24-32, Ezekiel 16:49-50, etc.
THE SODOMITES' ONLY HOPE IS TO HAVE THE UNAMBIGUOUS TRUTH PREACHED TO THEM, AND PERHAPS GOD WILL SOFTEN THEIR HEARTS AND GRANT THEM REPENTANCE TO DEPART FROM THEIR SIN AND NAME THE NAME OF CHRIST. NOT

VERY LIKELY, THOUGH, SINCE GOD HAS GIVEN THEM UP.
"Nevertheless the foundation of God standeth sure, having this seal, The Lord knoweth them that are his. And, Let every one that nameth the name of Christ depart from iniquity." II Timothy 2:19. "Wherefore God also gave them up to uncleanness...unto vile affections...to a reprobate mind." Romans 1:24-28.
See also II Timothy 2:24-26, Psalm 5:5, I Corinthians 6:9-11, Acts 17:30, Jude 22,23, etc.
THERE IS A HELL WHERE ALL IMPENITENT SINNERS WILL RESIDE FOR ALL ETERNITY. THAT INCLUDES SODOMITES (CALLED "DOGS").
"And they shall go forth, and look upon the carcasses of the men that have transgressed against me: for their worm shall not die, neither shall their fire be quenched; and they shall be an abhorring unto all flesh." Isaiah 66:24. "For without are dogs..." Revelation 22:15.
See also Mark 9:44, Luke 16:23, Revelation 20:15.
In summary, sodomites are wicked and sinners before the Lord exceedingly (Gen. 13:13), are violent and doom nations (Gen. 19:1-25; Jgs. 19), are abominable to God (Lev. 18:22), are worthy of death for their vile, depraved, unnatural sex practices (Lev. 20:13; Rom. 1:32), are called dogs because they are filthy, impudent and libidinous (Deut. 23:17,18; Mat. 7:6; Phil. 3:2), produce by their very presence in society a kind of mass intoxication from their wine made from grapes of gall from the vine of Sodom and the fields of Gomorrah which poisons society's mores with the poison of dragons and the cruel venom of asps (Deut. 32:32,33), declare their sin and shame on their countenance (Isa. 3:9), are shameless and unable to blush (Jer. 6:15), are workers of iniquity and hated by God (Psa. 5:5), are liars and murderers (Jn. 8:44), are filthy and lawless (2 Pet. 2:7,8), are natural brute beasts (2 Pet. 2:12), are dogs eating their own vomit and sows wallowing in their own feces (2 Pet. 2:22), will proliferate at the end of the world bringing final judgment on mankind (Lk. 17:28-30), have been finally given up by God to uncleanness dishonoring their own bodies among themselves, to vile affections, and to a reprobate mind such that they cannot think straight about anything (Rom. 1:23-28), have wholly given themselves over to fornication and gone after strange flesh (Jude 7), must be pulled as faggots from the fire (Jude 23), and have no hope of Heaven unless they repent (Rev. 22:15), which they can't do in their prideful state (Jer. 6:15). TO MARQUEER:
SODOMY IS AN ABOMINABLE SIN, WORTHY OF DEATH.
"If a man also lie with mankind, as he lieth with a woman, both of them have committed an abomination: they shall surely be put to death; their blood shall be upon them." Leviticus 20:13. "Who knowing the judgment of God, that they which commit such things are worthy of death, not only do the same, but have pleasure in them that do them." Romans 1:32.

See also Leviticus 18:22, Genesis 19, Romans 1:18-32, I Corinthians 6:9-11, I Timothy 1:10, and Jude 7.
GOD HATES ALL WORKERS OF INIQUITY.
"The foolish shall not stand in thy sight, thou hatest all workers of iniquity." Psalm 5:5.
See also Leviticus 20:23, Leviticus 26:30, Deuteronomy 32:19, Psalm 5:6, Psalm 11:5, Malachi 1:3, Matthew 7:23, and Romans 9:13.
JESUS CHRIST DIED ONLY FOR THOSE WHO BELIEVE.
"For God so loved the world that He gave His only begotten Son, that whosoever believeth in Him should not perish, but have everlasting life." John 3:16.
See also John 13:1, John 17:9, Ephesians 5:25, etc.
ONLY GOD'S ELECT HAVE THE CAPABILITY TO BELIEVE.
"Therefore they could not believe, because that Esaias said again, He hath blinded their eyes, and hardened their heart; that they should not see with their eyes, nor understand with their heart, and be converted, and I should heal them." John 12:39,40.
See also John 10:11,26, Matthew 11:25,26, Acts 13:48, Romans 9:19-24, etc.
SODOMITES ARE PROUD OF THEIR SIN ("GAY PRIDE"), AND IN THAT PRIDEFUL STATE THEY CANNOT REPENT - YOU CANNOT REPENT OF SOMETHING YOU'RE PROUD OF.
"Were they ashamed when they had committed abomination? nay, they were not at all ashamed, neither could they blush: therefore they shall fall among them that fall: at the time that I visit them they shall be cast down, saith the LORD." Jeremiah 6:15.
See also Jeremiah 13:23, Romans 1:24-32, Ezekiel 16:49-50, etc.
THE SODOMITES' ONLY HOPE IS TO HAVE THE UNAMBIGUOUS TRUTH PREACHED TO THEM, AND PERHAPS GOD WILL SOFTEN THEIR HEARTS AND GRANT THEM REPENTANCE TO DEPART FROM THEIR SIN AND NAME THE NAME OF CHRIST. NOT VERY LIKELY, THOUGH, SINCE GOD HAS GIVEN THEM UP.
"Nevertheless the foundation of God standeth sure, having this seal,

The Lord knoweth them that are his. And, Let every one that nameth the name of Christ depart from iniquity." II Timothy 2:19. "Wherefore God also gave them up to uncleanness...unto vile affections...to a reprobate mind." Romans 1:24-28.
See also II Timothy 2:24-26, Psalm 5:5, I Corinthians 6:9-11, Acts 17:30, Jude 22,23, etc.
THERE IS A HELL WHERE ALL IMPENITENT SINNERS WILL RESIDE FOR ALL ETERNITY. THAT INCLUDES SODOMITES (CALLED "DOGS").
"And they shall go forth, and look upon the carcasses of the men that have transgressed against me: for their worm shall not die, neither shall their fire be quenched; and they shall be an abhorring unto all flesh." Isaiah 66:24. "For without are dogs..." Revelation 22:15.
See also Mark 9:44, Luke 16:23, Revelation 20:15.
In summary, sodomites are wicked and sinners before the Lord exceedingly (Gen. 13:13), are violent and doom nations (Gen. 19:1-25; Jgs. 19), are abominable to God (Lev. 18:22), are worthy of death for their vile, depraved, unnatural sex practices (Lev. 20:13; Rom. 1:32), are called dogs because they are filthy, impudent and libidinous (Deut. 23:17,18; Mat. 7:6; Phil. 3:2), produce by their very presence in society a kind of mass intoxication from their wine made from grapes of gall from the vine of Sodom and the fields of Gomorrah which poisons society's mores with the poison of dragons and the cruel venom of asps (Deut. 32:32,33), declare their sin and shame on their countenance (Isa. 3:9), are shameless and unable to blush (Jer. 6:15), are workers of iniquity and hated by God (Psa. 5:5), are liars and murderers (Jn. 8:44), are filthy and lawless (2 Pet. 2:7,8), are natural brute beasts (2 Pet. 2:12), are dogs eating their own vomit and sows wallowing in their own feces (2 Pet. 2:22), will proliferate at the end of the world bringing final judgment on mankind (Lk. 17:28-30), have been finally given up by God to uncleanness dishonoring their own bodies among themselves, to vile affections, and to a reprobate mind such that they cannot think straight about anything (Rom. 1:23-28), have wholly given themselves over to fornication and gone after strange flesh (Jude 7), must be pulled as faggots from the fire (Jude 23), and have no hope of Heaven unless they repent (Rev. 22:15), which they can't do in their prideful state (Jer. 6:15). They need to hear this truth if they are to have any hope of penitence, faith in Jesus Christ and salvation (I Timothy 4:2-4).

3343. Day 227 (YAWN) of Mark whining that he has been "libbeled".

Day 227 of Mark crying...
"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and
fraud."
"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and
fraud."
"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and
fraud."
"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and
fraud."
WAH! WAH! WAH!

So, let's re-cap Mark's wonderful life, shall we:

1) He was drafted into the US Army.
2) He is a member of the Chemical Corps.
3) The military won't let him retire.
4) He doesn't serve under the name 'Mark Morgan', but that's okay, 'cuz
the FBI, DOD, and CIA have all told him he can do it.
5) He is on-the-lam from stalking former marines and fatal attraction
ex-wives
6) He was, until recently, paying $5/hr. to access his ISP
7) He has a 248 IQ, but can't figure out how to use a spell checker.
8) He is a bi-sexual 33 yr. old Pagan male ham who likes to be spanked.

9) He can't find any action on the military base in Central IL, so he
has to ask people on USENET.
10) His best like-minded buddy lives in Glendale, West Virginia and neither
of them can spell.

Have I missed anything?

"He said he was a Kentucky Colonel. And he works as a consultant for the
Government, then said he was tech support..... "

SODOMY IS AN ABOMINABLE SIN, WORTHY OF DEATH.
"If a man also lie with mankind, as he lieth with a woman, both of them have committed an abomination: they shall surely be put to death; their blood shall be upon them." Leviticus 20:13. "Who knowing the judgment of God, that they which commit such things are worthy of death, not only do the same, but have pleasure in them that do them." Romans 1:32.

See also Leviticus 18:22, Genesis 19, Romans 1:18-32, I Corinthians 6:9-11, I Timothy 1:10, and Jude 7.
GOD HATES ALL WORKERS OF INIQUITY.
"The foolish shall not stand in thy sight, thou hatest all workers of iniquity." Psalm 5:5.
See also Leviticus 20:23, Leviticus 26:30, Deuteronomy 32:19, Psalm 5:6, Psalm 11:5, Malachi 1:3, Matthew 7:23, and Romans 9:13.
JESUS CHRIST DIED ONLY FOR THOSE WHO BELIEVE.
"For God so loved the world that He gave His only begotten Son, that whosoever believeth in Him should not perish, but have everlasting life." John 3:16.
See also John 13:1, John 17:9, Ephesians 5:25, etc.
ONLY GOD'S ELECT HAVE THE CAPABILITY TO BELIEVE.
"Therefore they could not believe, because that Esaias said again, He hath blinded their eyes, and hardened their heart; that they should not see with their eyes, nor understand with their heart, and be converted, and I should heal them." John 12:39,40.
See also John 10:11,26, Matthew 11:25,26, Acts 13:48, Romans 9:19-24, etc.
SODOMITES ARE PROUD OF THEIR SIN ("GAY PRIDE"), AND IN THAT PRIDEFUL STATE THEY CANNOT REPENT - YOU CANNOT REPENT OF SOMETHING YOU'RE PROUD OF.
"Were they ashamed when they had committed abomination? nay, they were not at all ashamed, neither could they blush: therefore they shall fall among them that fall: at the time that I visit them they shall be cast down, saith the LORD." Jeremiah 6:15.
See also Jeremiah 13:23, Romans 1:24-32, Ezekiel 16:49-50, etc.
THE SODOMITES' ONLY HOPE IS TO HAVE THE UNAMBIGUOUS TRUTH PREACHED TO THEM, AND PERHAPS GOD WILL SOFTEN THEIR HEARTS AND GRANT THEM REPENTANCE TO DEPART FROM THEIR SIN AND NAME THE NAME OF CHRIST. NOT VERY LIKELY, THOUGH, SINCE GOD HAS GIVEN THEM UP.
"Nevertheless the foundation of God standeth sure, having this seal, The Lord knoweth them that are his. And, Let every one that nameth the name of Christ depart from iniquity." II Timothy 2:19. "Wherefore God also gave them up to uncleanness...unto vile affections...to a reprobate mind." Romans 1:24-28.

THERE IS A HELL WHERE ALL IMPENITENT SINNERS WILL RESIDE FOR ALL ETERNITY. THAT INCLUDES SODOMITES (CALLED "DOGS").
"And they shall go forth, and look upon the carcasses of the men that have transgressed against me: for their worm shall not die, neither shall their fire be quenched; and they shall be an abhorring unto all flesh." Isaiah 66:24. "For without are dogs..." Revelation 22:15.
See also Mark 9:44, Luke 16:23, Revelation 20:15.
In summary, sodomites are wicked and sinners before the Lord exceedingly (Gen. 13:13), are violent and doom nations (Gen. 19:1-25; Jgs. 19), are abominable to God (Lev. 18:22), are worthy of death for their vile, depraved, unnatural sex practices (Lev. 20:13; Rom. 1:32), are called dogs because they are filthy, impudent and libidinous (Deut. 23:17,18; Mat. 7:6; Phil. 3:2), produce by their very presence in society a kind of mass intoxication from their wine made from grapes of gall from the vine of Sodom and the fields of Gomorrah which poisons society's mores with the poison of dragons and the cruel venom of asps (Deut. 32:32,33), declare their sin and shame on their countenance (Isa. 3:9), are shameless and unable to blush (Jer. 6:15), are workers of iniquity and hated by God (Psa. 5:5), are liars and murderers (Jn. 8:44), are filthy and lawless (2 Pet. 2:7,8), are natural brute beasts (2 Pet. 2:12), are dogs eating their own vomit and sows wallowing in their own feces (2 Pet. 2:22), will proliferate at the end of the world bringing final judgment on mankind (Lk. 17:28-30), have been finally given up by God to uncleanness dishonoring their own bodies among themselves, to vile affections, and to a reprobate mind such that they cannot think straight about anything (Rom. 1:23-28), have wholly given themselves over to fornication and gone after strange flesh (Jude 7), must be pulled as faggots from the fire (Jude 23), and have no hope of Heaven unless they repent (Rev. 22:15), which they can't do in their prideful state (Jer. 6:15). They need to hear this truth if they are to have any hope of penitence, faith in Jesus Christ and salvation (I Timothy 4:2-4).

"If a man also lie with mankind, as he lieth with a woman, both of them have committed an abomination: they shall surely be put to death; their blood shall be upon them." Leviticus 20:13. "Who knowing the judgment of God, that they which commit such things are worthy of death, not only do the same, but have pleasure in them that do them." Romans 1:32.

Why do you do it, hypocrite? You've done it for years about others who disagree with your perverted lifestyle.

That's not what you said, though. We were talking about your shemale wife and you said:

Marqueer's Message From Hell
"Then he said, I pray thee therefore, father, that thou wouldest send
him to my father's house: For I have five brethren; that he may testify
unto them, lest they come into this place of torment. Abraham saith
unto him, They have Moses and the prophets; let them hear them. And he
said, Nay, father Abraham: but if one went unto them from the dead,
they will repent. And he said unto him, If they hear not Moses and the
prophets, neither will they be persuaded, though one rose from the
dead." Luke 16:27-31. Listen to Moses and the prophets:
"Thou shalt not lie with mankind, as with womankind: it is
abomination." Leviticus 18:22.

"Hell from beneath is moved for thee to meet thee at thy coming...the
worm is spread under thee, and the worms cover thee." Isaiah 14:9-11.

"The same shall drink of the wine of the wrath of God, which is poured
out without mixture into the cup of his indignation; and he shall be
tormented with fire and brimstone in the presence of the holy angels,
and in the presence of the Lamb; And the smoke of their torment
ascendeth forever and ever; and they have no rest day or night."
Revelation 14:10,11.

Marqueer's Message From Hell
"Then he said, I pray thee therefore, father, that thou wouldest send him to my father's house: For I have five brethren; that he may testify unto them, lest they come into this place of torment. Abraham saith unto him, They have Moses and the prophets; let them hear them. And he said, Nay, father Abraham: but if one went unto them from the dead, they will repent. And he said unto him, If they hear not Moses and the prophets, neither will they be persuaded, though one rose from the dead." Luke 16:27-31. Listen to Moses and the prophets:
"Thou shalt not lie with mankind, as with womankind: it is abomination." Leviticus 18:22.

"Hell from beneath is moved for thee to meet thee at thy coming...the worm is spread under thee, and the worms cover thee." Isaiah 14:9-11.

"The same shall drink of the wine of the wrath of God, which is poured out without mixture into the cup of his indignation; and he shall be tormented with fire and brimstone in the presence of the holy angels, and in the presence of the Lamb; And the smoke of their torment ascendeth forever and ever; and they have no rest day or night." Revelation 14:10,11.

sorry to be the one-sit down and take a breathe and be the one
intelligent not gay or anything.i break the news.IN NO WAY THERE ARE
ANY SIN. i will cast a light .take it piano,be the seeker you onced
realized the miracle within.And this life are no competition,no race.
thats man made, still in effect, future embarrasment.like a pee- stain
on the darn photo mum always do her guilt dance for with or something
similair.

HOWEVER
we are in no way at the same place.not mentaly,not physical,and -we are
surtenly not at the same location Dooh.a man in Nevada would rarely
combat a 18y old in Uddevalla over a glas of water! right!? like a hill
with a trea are same trea same hill,it cant be decided if its the same
in the north or in east.But whats known is,we are not at the same
place.the tempted by bond to this world invent sin to rule out it.A
rule is-as always-a limit and as such open for free attention.
It is a good thing,to know the rule.BUT dont you know everything are
reflexive in so many ways.its like in US someware they forced covers on
statues.there you have a pair of genitila more vivid under the cloth
than ever.And this with the children.
All children knows mummys got boobies.that is fundamental.instead you
get thought prison with no doors or a false alarming over 345 items any
day.But since the hill is not to be realized or seen from all ways at
one time -a second.
--Same with the ruling.
cause a man with no desire for cheeseporn with hammer-death or to be a
mean stuck up ass are in any risk to be that at all or suddenly.

And mean is only closing things.no wisdom can be in the same room
beside the surfaces.
and sin is -if anything- to pass judgement over any living being.
but its not a sin its a crime.you may be at the bible word junction,but
i done the reading. and guess! there are many sides to this hill.and it
is created that way.
creation is still running by the way,any kid watching a duckling hatch
can sign that.
hope i reached some part of the ruling judge head.

These are the numbers of current, unexpired
amateur radio licenses held by individuals
on the stated dates, and the percentage of
the total number of active licenses that
class contains:

As of May 14, 2000:

Novice - 49,329 (7.3%)
Technician - 205,394 (30.4%)
Technician Plus - 128,860 (19.1%)
General - 112,677 (16.7%)
Advanced - 99,782 (14.8%)
Extra - 78,750 (11.7%)

Total Tech/TechPlus - 334,254 (49.5%)

Total General/Advanced/Extra - 291,209 (43.2%)

Total all classes - 674,792

As of July 15, 2006:

Novice - 24,835 (3.8%) [decrease of 24,494]
Technician - 282,967 (43.0%) [increase of 77,573]
Technician Plus - 37,496 (5.7%) [decrease of 91,364]
General - 132,770 (20.2%) [increase of 20,093]
Advanced - 71,671 (10.9%) [decrease of 28,111]
Extra - 108,214 (16.4%) [increase of 29,464]

Total Tech/TechPlus - 320,463 (48.7%) [decrease of 13,791]

Total General/Advanced/Extra - 312,655 (47.5%) [increase of 21,446]

Total all classes - 657,953 (decrease of 16,839)

Note that these totals do not include licenses
that have expired but are in the grace period.

They also do not include club, military, RACES
or other station-only licenses.

Note also that effective April 15, 2000, new
Novice, Technician Plus and Advanced licenses
are no longer issued.

Since April 15, 2000, FCC has renewed all existing
Technician Plus licenses as Technician. It is therefore
informative to consider the totals of the two classes,

since the Technician class includes a significant number of Technician Plus licenses renewed as Technician.

Ignorance is bliss, which explains Wiseman's posts.

by Rabbi Eliyahu Stern

Tisha b'Av (the 9th of the month of Av), the day Jews mourn the loss of the Temple and their subsequent exile, is one of those holidays that never made too much sense growing up. Let me explain by recounting a story told to me by my teacher Rabbi David Hartman. Following the Six Day War, Hartman, who was a rabbi in Montreal, was commemorating Tisha b'Av with his congregation. He had just been in Israel celebrating its glorious victory. As he looked out into his congregation he became increasingly disturbed. Shaking his head and saying to himself, "What are they mourning for? We have returned! We have returned to our homeland." Hartman got up from his seat, walked over to the podium, and asked for his congregation's attention. They were sitting on the floor saying over lamentations, but they looked up from their prayer books and gave their ears to their spiritual leader. Looking at them in shock and disbelief Hartman exclaimed, "I want you all to know that the Jewish people are singing and dancing in the streets of Jerusalem while you are sitting here and crying." He then went back to his seat and the bewildered congregation went back to mourning.

In recent years, Hartman's enthusiasm has become tempered by the reality that we have not been fully redeemed and maybe we are still in a state of mourning. The tumultuous events of the past few weeks in Gaza and Lebanon remind us just how important that reality check is.

It's a shame, but this year we all have so much to be mourning about.

Your hint is waaaaaay off base, Roger. You with your countless posts of filthy, vile untruths--you with your myriad sock puppets--you with your frequent posts as others, are the biggest liar and biggest pariah in this newsgroup and likely in usenet. You even have to deny being yourself and to invent an imaginary friend for yourself. That's exceedingly pathetic.

gay marriage and be done with it? Gay or not, quit crapping on the

indeed roger has been led by my carefull design to point where he is
reduced to posting merely filthy one liners as opposed to his
multiscreen diatribes

and by simply caring even less than I might otherwise by spelling n
this action I leave with little to focus on besides spelling errors

if is a mark of stupidity to expolit one weakenesses against your foes,
by knowing you foes reaction to them then so be it

I for one would rather read about wismen going on about a spelling that
I did not bother to proof read out than another diatribe where he calls
me a pedophile and such filth

What's the matter with you, Roger? Are you just not able to deal with
your demons?

We can discuss it after the ARES meeting if you like.

Dave K8MN
.....

Surely you jest, Dave. Roger prefers to joust with his naysayers behind
closed doors or via anonymous remailers. To, for a minute, entertain the
thought that he'd garner the courage to confront those whom he has been
antagonizing on a man to man basis is folly. To put it in West Virginia
terms, "That dog don't hunt."
Am I the only person who has noted that Mark has gotten Roger's dander of
late? Roger seems to be posting less lengthy filth-laden posts and replacing
them with weak one-liners.
Of course Mark is no mental warrior himself, and while he doesn't resort to
filth he and Roger could be Poster Boys for What Not To Do On Usenet.

The contest to determine which of these two is the dimmist bulb on the tree
continues, ad nauseum...

why is that funny I am just pointing out that Wismen et all are

It is "tenets", Dufus. As in doctrine or theory.

Tenants are persons who occupy the property of another.

You just can't fix stupid, can you?

The bottom line, Mark, despite your weak-kneed responses, is that you are an intellectual midget. Between you and mental misfit Wiseman, the two of you have managed to turn this news group into a virtual cesspool. Your half-assed responses that you are merely defending your "honor" are but more of your ongoing charade. You've been spamming Usenet since at least 1998. You have no honor. You certainly have no pride.
You, like Wiseman, apparently have little to nothing going for you. I think that I can safely speak for all of this newsgroup when I say that you are a pure, unadulterated idiot, Mark. You make your unwelcome presence known for just about any post so presented, whether or not your comments were asked for. You even attempted to ingratiate yourself with Paul in hopes that if Paul responded to you it would lend you credibility. By his non-response you were summarily rebuffed and ignored. Apparently Paul considers you to be a mental inferior unworthy of his attention, and rightfully so. He shut you off, didn't he? So, Mark, after being ignored by Paul, you had to seek your own intellectual level...that being Roger Wiseman.
Disdain, Mark, look it up. That is how many of us view you. I will take it one step further. I pity you. You sit on your overweight haunches day in, day out with no life save for Usenet. I feel sorry for you, Mark. I hesitate to quantify anybody as a loser, but if I had to pick an example, you would be it.
Simply put? You are an idiot, Mark. A bean-brained, grossly overweight nonentity. Nothing more, nothing less.

Do you have a will?

Do you have family to care for, an insurance policy?

How many were in your group?

This is my job, this is what I do.

You have to prove to me you should be murdered, and by god, your group did.

Keep it real, it will happen no matter what you think you can troll.

No amount of jello will save your life.

I asked you people, I begger you , to stop for 3 years. It is too late now.

No amount of anal rape will help you , and in fact, it is because you anally rape, you get murdered.

See how dumb you are?

Well, you're out of luck if you think Billy the Bill Collector has a marijuana farm on his property. If they catch you growing pot in El Dorado County, the first thing they do is seize your land. Billy's daddy grew a lot of Christmas trees on the property, and the Campaign Against Marijuana Planting considers such tree farms to represent likely hiding places for pot farms. Consequently, those helicopters are always flying over really low, looking for pot plants. In short, Billy would never be so dumb.

==>MASSIVE CUBESAT LAUNCH FAILS

A much-heralded attempt to launch 15 CubeSats built by 11 universities and
one private company failed this week. Fourteen of the tiny spacecraft
carried Amateur Radio transmit-only payloads.

The Dnepr-1LV rocket lifted off from Russia's Baikonur Cosmodrome in
Kazakhstan at 1943 UTC on July 26. Various accounts indicate that the
mission went awry less than two minutes after liftoff when the first stage
failed to separate on time, causing an emergency shutdown of the rocket's
main engine. Reports vary on how far downrange -- and just where -- the
vehicle fell. One said the Dnepr dropped to Earth some 15 km from the launch
site, while another put the distance at 190 km. A third account said the
Dnepr dropped into the Indian Ocean.

Originally set for June 28, the launch had been postponed until July 26. The
CubeSat project was a collaboration between California Polytechnic State
University-San Luis Obispo and Stanford University's Space Systems
Development Laboratory. All of the CubeSats were designed and built by
students at various universities in the US and elsewhere in the world. The
CubeSat roster included AeroCube-1, CP-1, CP-2, ICE Cube-1, ICE Cube-2, ION,
HAUSAT-1, KUTESat, MEROPE, nCube-1, RINCON, SACRED, SEEDS, PiCPoT and
Voyager.

Thirteen of the satellites were to have downlinks in the Amateur Radio
satellite allocation between 435 and 438 MHz, and one was to operate on
145.980 MHz. None of the spacecraft carried a transponder. Transmitter power
outputs ranged from 10 mW to 2 W.

The Dnepr was the second to launch this month from Baikonur's Area 109.
Other payloads included BelKA, the first Belarusian satellite, and three
other microsatellites. According to Satellite Launch Report, the original
Dnepr launcher was replaced by a different one in June after a problem

was
detected in the original vehicle's digital flight control system.

The Dnepr launch failure was said to be the first in seven orbital
launch
attempts. The Dnepr vehicle is a repurposed SS-18 "Satan" three-stage
intercontinental ballistic missile, originally designed in the 1980s to
compete with the US Peacekeeper missile. The START 2 treaty allowed up
to
150 of the missiles to be converted for use as space launchers.

The Russian space agency has convened a special commission to look into
the
cause of the malfunction.

This is correct. You are right. Had he any honor, he'd cease spamming Usenet
to the tune of 40 to 50 posts per diem. Had he any honor he'd cease
exchanging taunts with Roger, too. (sewage seeking its own level there)
Unfortunately for the rest of us Mark has no honor, fewer scruples, and zero
common sense. He will most likely continue to burden the groups with his
worn one-liners and unasked for opinions.
You'd think that after being rebuffed, made fun of, and digitally spat upon
that he'd learn something. This is not to be and Mark will continue, sadly,
to provide us with blatantly open displays of his stupidity. Mark is a
classic example of the old saying, "You just can't fix stupid."

Are you so stupid that you have to repost other peoples insults instead of
being original? I'm sure if you answer this question it will be with someone

It was twenty years ago today,
Roger Wiseman forced the boys to be gay
He's been going in and outa their rears
And he's made them into ravin' queers.
So watch out or I'll force on you
The act we've hated all these years,
Roger Wiseman's Greyhound Men's Room Band.

We're Roger Wiseman's Greyhound Men's Room
Band,
Disciples of the Bucktoothed Choad,
Roger Wiseman's Greyhound Men's Room Band,
Sit back and watch us shoot a load.
Roger Wiseman's Greyhound, Roger Wiseman's
Greyhound,
Roger Wiseman's Greyhound Men's Room Band.
It's wonderful to be here,
But Wiseman's full of crap,
The dirty goddamn pederast:
That fucker gave us syphilis,
That fucker gave us clap.

I don't really want to stop the show,
But I thought you had all better know,
That Wiseman's going to play a song,
On a stickpin that he stuck through his schlong.
So let me introduce to you
The one and only Bucktoothed Choad
And Roger Wiseman's Greyhound Men's Room Band.

If you charming molesters really like ba.broadcast that much, why don't
you actually reply to a TOPIC IN BA.BROADCAST?

Agreed. You enjoy the status quo. And as such, the statement below is
correct.

Hey moron, if you really wanted to be left alone, a start would be to snip
rec.radio.cb in your replies. But then again, we all know you are lying and
just love the negative attention...no wait, it's your life.

US Coast Guard is involved in the evacuation of US citizens in Lebanon
at the Port in Beirut. However, I'd like to see the source of the above

if you hd any honnor youd understand and stop blaming the victum in a
libel attack but since you have no honnor as is made clear y your
annymouse status you don't get it
.

You have had folks in these groups "attack" you because of your stupid and
incessant spam. You start it, Mark, and then you whine like a petulant
little schoolgirl when somebody you've angered calls you a less than
flattering name. You are not a "victum", Mark. You are the instigator and
you are well aware of that. So are the rest of us.
Your comment that I am "annymouse" and thereby have no "honnor" is
pointless, as are the majority of your posts. I can afford to use Altopia,
can you?
You might learn the advantage of being anonymous after your neighbors
receive a few copies of your posts, as your buddy once threatened to do.
So, Mr. Morgan, I am going to continue being "annymous" while you plod
mindlessly forward and show us how to be the pea-brained idiot that you so
well present yourself to be.

1. It's GOOGLE. I post to TWO groups normally, and I don't want to search to find a provider that carries Usenet (I'm no longer one one of those) nor pay for 140,000 others, 70 percent of which I have little interest, are havens for illegality of many forms or simply full of people playing retarded role games involving calling each other gay or child molester, those infested by people playing persecutory mindgames and spamming. The groups other than ba.broadcast seem to share most of these qualities on top of mindlessness and the implication of a drunken or drugged status, real or not.

1b. ba.broadcast is in it's own existance a funhouse of it's own, and we simply have no requirements to import more fun.

2. Google Groups has absolutely NO PROVISIONS FOR KILLFILING. NONE.

WIDIWYS What I See Is What You Spew.

3. NO MATTER WHAT I SNIP, somebody gets lonely and reinserts it.

4. Google Groups allow responses to FIVE GROUPS ONLY, and then ONLY TO GROUPS GOOGLE ARCHIVES (or allows new or unmoderated posting to).

5. NOBODY IN THE GROUP NORMALLY GIVES YOU TIME OF DAY.

Why you continue to crosspost is perplexing, given that even gay people ignore you.

Even worse, if I redirect the replies to my post to another, usually benign group, you guys reinstate the reply to ba.broadcast. Does this qualify as useless smartass behavior?

6. If you actually had anything to give us other that noise, you would have more people willing to talk to you.

7. All I see are endless, predictable diatribes about gays and child molesters and truckstop bathroom brothels in especially the CB and shortwave groups. If DXAce is such a prick, why do you give him ammo? Is the Vetch switch on ONLY?

I just don't see the Peterbilt orgies at Petro (OR Pilot, T/A etc). You all sound like GULPs (Glorified Urban Legend Poets, not a 7 Eleven soda cup).

I DO know there are a lot of filthy people in my area on CB who ought to get a knee in the groin for the way they talk back to women on the air. Mr. ECHO/REVERB and linear converter from hell knows you I mean.

8. None of you ragchew, you just incessantly JAWBONE. Silent QRM until you're SK (Silent Keys).
.
.
.
So, the matter isn't MY blocking YOU, it's YOU staying away from BA.BROADCAST.

DO you copy?

when you falsely claim I have intelectual superoirs in posting in the
NG you cease to be a messenger and become a libeler, let alone go on
about wasting O2

thee are those that consider my efforts a waste. I would conceed that
they ight have point if the facts were clearly to the contary
you presented no facts you just repeat more libel

here are some facts

Fact: I set out to stop what has been K4YZ multi year effort to libel
everyone he is seriously oposed to. I have achived that goal.

Fact: I decided to resist the effort of many folks to use an accusation
of Homosexaulity as weapon in these NG's. I have not been entirely
succesfull to date OTOH most posters have come to the point of noting
"so what?" (or words to that effect) in response to such efforts, thus
I am satfied with the results

Fact:in resisting the effort of various folks to label tech and
NoCoders as incapple Ham I believe the way such trolls as "slow code"
and Al klein quiting the feild have shown that my point is made.

Fact: in persuing justice for all (even Wismen as I try to restrain
those tat feel the need to enhance his records of sin further) I have
prefromed a Mitvah

The price I have paid for this is what? Making it more obvious (not
that it was ever a secert) that I suffer from dyslexia and aphasia
which make my words esp with typed with passion (or boredom as is often
the case in hauling out Wisemen trash) an adventureto say the least to
read. For you I supose this would be mortifing to me it is indeed
something I had to get used too by the 3rd or 4th grade

you may make of my typos all you like it hardly bothers me (msotly it
bothers me when the mispeeling at point near the heart of the peice of

writing is seized upon to avoid the point itself but even that makes my oint in many cases

you are a cowwrd and clearly without honor

and contiue to support the use of hate and smear campaign over the
truth yes you can do that and likely you will enjoy being anymouse
about since you would be likely ashamed to aosscate with such remarks
by your own name satan (or is 666 the antichrist) oh well who can sort
out your delsuions of grander
.
I see. When it is correctly pointed out to you that your intellectual
superiors consider your blatherings to be a waste of oxygen, you attack the
messenger rather than the facts presented.
Don't try to twist the intent or content of my previous post with the use of
terms such as "smear campaign" or "use of hate". I stated facts, Mark. No
"smear campaign" involved. Your attempt to do so is covered in Debating 101,
and holds no water. You've been watching Hillary Clinton too much. Your
comment about my choice of 666 is laughable. Nice try, Mark, but like the
rest of your post, it is weak. A third grader could do better.

Facts, as they often say, is facts. You have quickly become The Clown of Usenet and have done so all by your lonesome self.
Now, Mark, twist THIS message around to suit your fancy. I guess next up for you will be to accuse me of "libbeling" you by calling you a clown. And, Mark. Describing you as a lonesome clown is a statement of fact. Live with it.

when you falsely claim I have intelectual superoirs in posting in the
NG you cease to be a messenger and become a libeler, let alone go on
about wasting O2

...
Prove that there are those of us who are NOT your intellectual superior. By
which yardstick are you going to measure or determine this? By the very
simple fact that we post correctly, use good grammar and don't splatter our
posts with misspelled words is example enough.

...
thee are those that consider my efforts a waste. I would conceed that
they ight have point if the facts were clearly to the contary
you presented no facts you just repeat more libel
...
I repeated nothing. I made a statement based upon my observations. There is
no libel involved.
...

here are some facts

Fact: I set out to stop what has been K4YZ multi year effort to libel
everyone he is seriously oposed to. I have achived that goal.
...
Fact: You "saw" Steve in post after post that were not his. You falsely
accused Steve of making anon posts when he, in fact, did no such thing when
you yourself were accused of the same. How many email addresses and sock
puppets do you need? Steve has one...his REAL name and callsign.
...

Fact: I decided to resist the effort of many folks to use an accusation
of Homosexaulity as weapon in these NG's. I have not been entirely
succesfull to date OTOH most posters have come to the point of noting
"so what?" (or words to that effect) in response to such efforts, thus
I am satfied with the results
...
The accusations you refer to were mostly posts made by Wiseman in his
attempt to anger you after your forty to fifty posts per day. Wiseman is no
intellectual giant but you went way past the typical boundaries and even
went so far as to follow Wiseman to the Nim Busters boards where you further

antagonized him. Last I heard, Mark, the Admin banned you from the Nim Boards and to be banned from that group of misfits takes some bit of doing.
....

Fact:in resisting the effort of various folks to label tech and NoCoders as incapple Ham I believe the way such trolls as "slow code" and Al klein quiting the feild have shown that my point is made.
...
This is a moot point. If you were so easily offended by comments aimed toward No-Coders, the problem is yours. Had you any intellect you would have ignored the posts, but you couldn't leave well-enough alone. You just HAD to stick your nose in.
...

Fact: in persuing justice for all (even Wismen as I try to restrain those tat feel the need to enhance his records of sin further) I have prefromed a Mitvah
...
Fact: You are not "persuing" justice for all. You are taking every opportunity to spam, irritate, and inject inane comments where none are due. You have performed nothing other than flooding the newsgroups with one-liners that make little to no sense.
...

The price I have paid for this is what? Making it more obvious (not that it was ever a secert) that I suffer from dyslexia and aphasia which make my words esp with typed with passion (or boredom as is often the case in hauling out Wisemen trash) an adventureto say the least to read. For you I supose this would be mortifing to me it is indeed something I had to get used too by the 3rd or 4th grade
...
That, Mark, is an excuse. There are many of your peers who have overcome what you claim to be an affliction. You could do likewise, were you not so lazy. I have no pity for you or your excuses.
...

you may make of my typos all you like it hardly bothers me (msotly it bothers me when the mispeeling at point near the heart of the peice of writing is seized upon to avoid the point itself but even that makes my oint in many cases
...
If my "corrections" regarding your poor spelling didn't bother you, you would have not made the above comment. If you want to make a point, and make it intelligently, then take the time to do it correctly. Your compositions are akin to those that a second-grader would create. You can hardly expect your "points" to be taken seriously when you cannot present them in a format that the majority of us can understand. You are at fault here, Mark. Not the rest of us who speak English.
...

you are a cowwrd and clearly without honor
...

Was that supposed to cut to the core of my being? Upset me? Send me crying? To the contrary, Mark, your words, misspelled as they are, are meaningless. As I've said in the past, I look at you as a bouncy-ball toy to be slapped around much as a cat would do with a mouse. You are entertainment, Mark. A diversion. A nonentity. I respond to you for two reasons. First, I am bored. Secondly, you are so easy to bounce around that I find you mildly amusing and a soft target to boot.

Now let me see how you will twist this. Did I "libbel" you by referring to you as a soft target? Did I comport myself as being the Antichrist by using "666"? It will be interesting to see how you will surely misinterpret my commentary.

Lecture me not about honor, Mark. You, of all people, know not the meaning of the word.

What, exactly, IS Libbel? Can we count the ways? Is "Libbel" akin to Dribble? Piddle?
Perhaps someone with greater mental acquity than Mark can answer this age-old riddle/piddle/libbel/diddle conundrum.
How, exactly, does one "libbel" another? Is it a verb? An adjective? An insult? Compliment? Or does it have sexual undertones?
Perhaps we should forward this query to a person who is mentally superior to Mark Morgan. Just maybe Roger Wiseman can step in to provide an answer in terms that Mark may be able to comprehend.
I defer to the greater intellect of Mr. Wiseman who has shown so much mental sharpness of late. Can you, Roger, define "libbel" for Mark and the rest of us, the mental unworthies? Surely you can shed no small amount of West Virginia intellect upon this dilemma.
And remember, Roger, by so doing you will forever place Mark in a position of indebtedness.

3723. FIGHT THE SPEW! xnews / slrn score file update

The xnews score file which was posted previously has been updated to block some additional IP addresses belonging to known garbage posters. Google has now been blocked entirely, because it is now recognized as a major Usenet abuser which is responsible for allowing far too many people like Wiseman and Morgan to disrupt Usenet. All followups to Google posts have also been blocked.

Xnews is a free news reader which does not have to be installed. Simply extract it from the zip file and start running xnews.exe. You can obtain xnews from

http://www.download.com/3000-2164-10144167.html

and you can copy the score file below into score.ini to have an immediately effective filtering system.

An xnews / slrn score file allows you to specify filtering rules for each news group or for a collection of groups. You do that by enclosing the name of the group(s) in square brackets.

After the bracketed name of the groups, you specify a score. I don't bother with elaborate scoring, and instead give all matches a score of -9999. That causes the matching posts to be killed.

So, for all of the rec.radio.amateur hierarchy, plus the flame_fest news group, you can use the following score file (lines starting with "%" are comments). Text case is ignored by default, so "get help" matches "GeT HElp" when specified below. If you don't want to use a rule, simply insert a "%" character as the first character of a rule, or else delete the rule completely.

You are going to wish you were.

Marqueer's Message From Hell
"Then he said, I pray thee therefore, father, that thou wouldest send
him to my father's house: For I have five brethren; that he may testify

unto them, lest they come into this place of torment. Abraham saith
unto him, They have Moses and the prophets; let them hear them. And he
said, Nay, father Abraham: but if one went unto them from the dead,
they will repent. And he said unto him, If they hear not Moses and the
prophets, neither will they be persuaded, though one rose from the
dead." Luke 16:27-31. Listen to Moses and the prophets:
"Thou shalt not lie with mankind, as with womankind: it is
abomination." Leviticus 18:22.

"Hell from beneath is moved for thee to meet thee at thy coming...the
worm is spread under thee, and the worms cover thee." Isaiah 14:9-11.

"The same shall drink of the wine of the wrath of God, which is poured
out without mixture into the cup of his indignation; and he shall be
tormented with fire and brimstone in the presence of the holy angels,
and in the presence of the Lamb; And the smoke of their torment
ascendeth forever and ever; and they have no rest day or night."
Revelation 14:10,11.

Morgan's Sock
music: "Crocodile Rock"
(R. Dwight/B. Taupin/R. Wiseman)

Lloyd remembers when he was young
He and Morgan had so much fun
Jerking off and sucking dicks
Had a beat-up trailer where they used to turn tricks
But the biggest kick Lloyd ever got
Was doing the Wild Thing to Morgan's sock
While Davey would be playing with his cock
Lloyd would hop on and bop it to Morgan's sock

Well, Morgan's sock, it's gross and shocking
But Lloyd couldn't get enough
If he didn't screw it once a day, he'd threaten to play rough
Oh Lawdy Mama, the shrieks and howls
As Lloyd was stirring that poor sock's bowels
And Davey and Steve ran for towels

But the years went by and the sock wore thin
Morgan found other guys to stick it in
Lloyd stands weeping by the washing machine
Sniffing his own sweat socks and creamed jeans
But he won't forget the kicks he got
Slamming it into Morgan's sock
Davey tries, but poor Lloyd cries
Thinking of Morgan's sock between his thighs

Well, Morgan's sock, it's gross and shocking
But Lloyd couldn't get enough
If he didn't screw it once a day, he'd threaten to play rough
Oh Lawdy Mama, the shrieks and howls
As Lloyd was stirring that poor sock's bowels
And Davey and Steve ran for towels

Hey, Rogie, I didn't write the post to which you responded.

I don't have an ex-streetwalker wife. That's one of the reasons that she'd like to talk to you.

My wife won't be at the Marshall County ARES meeting a week from today, so you can put your fears of her aside. You and I can have an opportunity for a frank exchange of views. I do hope you'll show up to get your new ID card. I'm looking forward to seeing you.

Why not enlighten the newsgroup with some highlights of your EME experience, Roger? Tell us about your moonbounce station and the contacts you've made. Give us some tips on how to better our stations, including your stealth moonbounce array. I say this because the photos I took at your place don't indicate any antennas capable of moonbounce. Perhaps your EME antennas are skillfully hidden beneath your garage roof. I'd also like to know how you've dealt with the rather short duration view of the moon since you're nestled between the two steep hills.

That is at odds with your quoting of Biblical passages. Why, a guy who does things like that would have to be crazy!

(Mel Gibson once gave me a Blumpkin)

Blumpkin: (verb)

To receive fellatio whist defecating.
Highly acclaimed for involving two of
the most peasurable bodily release
events simultaneously, but very difficult
to accomplish.

Also called a blumpy.

Success: Everytime they get home after a long road
trip, Paul escorts Kim the the bathroom and sits
down for a good wholesome blumpkin.

Failure: Maria agreed to give me a blumpkin, but
she gave me such a great blowjob that I couldn't
squeeze out a single turd.

(now U know)
